Re: Golden Gate Irrigation District

Dear Danielle,

The Board of Directors of Golden Gate Irrigation District met and reviewed the map and materials you forwarded to us. Enclosed please find the map with markings to reflect the estimated boundaries of the District and approximate areas of water application. The Directors wanted to stress that this is an ongoing process, and, although this is likely an accurate representation of the District's areas of application, they would like to review any Director's report before it is finalized.

On the enclosed map, the District's boundaries have been outlined with black marker, generally following the location of some canals to the east and northwest. Also, the southern border of the District takes several jogs back and forth to include and exclude some properties. It was difficult for the Directors to determine precisely where this southern boundary was located, because the streets were not easily identifiable from this map. However, the markup represents their best guess. Additionally, the Directors marked a few places with yellow highlighter to indicate additional areas of water application.

If you should need further information or clarification, please do not hesitate to contact us, and please keep us informed as this project progresses. Thank you for your assistance.

Sincerely,

WHITE/PETERSON

Christopher D. Gabbert
