IDWR

RE: Lansing St Well Priority

This letter is to verify that the well on Lansing st. that belongs to the City of Blackfoot and is used solely for the purpose to supply irrigation water to the users of the Minor's Ditch Co. This letter is to verify that this well was part for the City of Blackfoot's water system and drilled prior to 1960. Also this well was used prior to the Ajudefication with a priority date before 1989.

I Jack Olney do agree to the best of my Knowledge that the Lansing St. Well was used for the Culinary purpose of the City of Blackfoot and that this well pump some where around 750 GPMs when it was in operation .

Thank you

Jack A. Olney

REF: Snake River Basin Adjudication (SRBA) Claim
A27-11706

Subject: Evidence of Priority

RESPONSE DATE: April 8, 2005

Dear Ron,

The above referenced SRBA claim was filed with an April 25th, 1960 priority date for the Lansing Street well. After reviewing the file I don't find that any evidence has been submitted to the Department to verify the priority date. As we have previously discussed on several occasions without some documentation to support the priority date the claim will be disallowed. This well is important to the recommendation of well # 7.

Please forward the information to me as soon as possible. If the information is not received in my office by the above response date the claim will be **DISALLOWED**. If you have any questions please feel free to contact me at the office.

Respectfully,

Cindy E. Bird
