

Notes

11/22/04 received claims back from skip to finish the review process.

Evidence in the file only covers a portion of the land claimed. No evidence for NESW, NWSE, SESE of Sec. 30, T4S, R41E. The other land has a 1919 priority.

12/6/04 George called about the letter. He will see what information he can find.

4-11-05 Called George's phone number. he is out with the cattle. Mrs. Oleson will have him call in the morning. I told her with no evidence a portion of the irrigation would be disallowed, and if he does have any evidence it would need to be faxed to us by Friday. PB

4/15/05 I spoke with George and told him we need to get this information by Monday. I also explained that even if this is disallowed we can still fix it after the preliminary report. But if the directors report goes out then it is between the court and us.

He said he will have to call his attorney and will call me back Monday to see what he has found out. CB

4/22/05 NO 1987/88 NAPP PHOTOGRAPHY Available in this area.

Notes

5/9/03 27-4078 Aleson
evidence of priority in the file
doesn't match the legal description
for this claim.
