RE: Evidence of Priority
Claim No. A27-04107

Dear Cindy,

Enclosed are copies of the documents I spoke to you over the telephone about regarding claim number A27-04107 for the City of Shelley. You received a claim in 1989 stating our priority date was 11/01/1948 for our city wells. However, upon researching this matter I discovered in 1948 the pump was replaced on the well, and the city actually drilled its first well and began using it in 1910.

The documents enclosed include minutes from council meetings held beginning in 1909 when the city governing board began discussing the construction of a city waterworks system until the pumping of the new well began. I have tried to highlight those sections of the minutes. I have also included copies of payable ledger pages showing the expenses that were paid to the contractors installing the waterworks system and drilling the well. There is also a copy of a bond register showing that the city bonded the project.

I hope I have included enough documentation showing evidence of our priority date to be amended to 09/07/1910. The only difficulty I have had is finding an exact address of where the well was drilled. Since there is no evidence of any wells being capped off I have to assume the well is at 155 W. Pine Street where well #1 and #2 exist which is claim A27-04107.

I appreciate all of your help on this matter, and if you have any questions please contact me at (208)357-3390. Will you please advise me if this documentation will validate our priority date as 1910. Thanks.

Sincerely,

Sandy Gaydusek

hi Candice,
I hope your feeling well with your pregnancy. Do you know what the baby is yet, boy or girl?

City of Shelley filed a statutory claim 27-4107 in the SRBA with a 11-1-1948 priority date. When they were asked to provide evidence to support the priority date they found documentation that the original well was drilled in April of 1910, a bigger replacement pump was put in in 1924 and 148. But they claimed a diversion based on 3000 people. Does the diversion rate need to reflect the population of 1910? And today the population is actually 3813. How is growth populations accounted for in munipicle systems?

Minutes of last regular meeting and
 special meeting read and approved.

Report of waterworks committee made
 by N.C. Mickelson as follows: "Committee
 had decided that it would be more
 economical and practical to run the
 main pipe line from reservoir down the
 west side of Butte in a Southwesterly
 direction to a point on base line street
 south of S.D. Humphrey's house, thence West
 to South west corner of John E. Kelley's farm
 thence North to corner east of A.M. Nielsen's
 hotel thence west to State Street and north to
 school house, making the main line 2 miles
 long instead of $1\frac{1}{2}$ miles as first estimated.

The committee had also waited upon S.D.
 Humphrey, Jos. C. Hansen, Hans Larson, W. G.
 Humphrey, John E. Kelley, Joseph Oler and L.J.
 Engdstrom who all were willing to pay \$300⁰⁰
 each for the privilege of tapping the main, this
 would mean an additional revenue of over
 \$2000⁰⁰ and would pay the extra cost of
 the $\frac{1}{2}$ mile of main, other parties had been
 seen but no definite answers obtained.

Mr Mickelson also reported that the committee
 had waited on Shelley Banking Co. and that
 the bank would furnish necessary money
 providing the Village issued the bonds and
 pledged them as security same to be accom-
 panied by an abstract showing legality of
 same.

Report accepted.

On motion Lundell That parties above mentioned

Report of Committee on Streets and alleys & platting read as follows

Hon. Board of Trustees Village of Shelley
Gentlemen:-

We your committee appointed on streets, alleys and platting beg to report as follows.

We have inquired fully into the condition of the streets, alleys and platted sections of the Village and we recommend to the Hon. Board of Trustees the following resolutions:

1st That base lines be established running North and South, East and West, whereby the lots in the platted part of town can be properly located.

2nd That Block #19 be recorded as last platted, said recording to be done at the expense of the owners.

Shelley, Idaho, Sept. 18, 1897
 Special meeting, Board of Trustees
 Village of Shelley. Full Board present,
 also Messrs W. D. McGulcherson & Carlson.

On motion of Trustee N. C. Mickelson
 "Be it resolved by the Board of Trustees
 of the Village of Shelley that said Board
 of Trustees of the Village of Shelley cause
 to be constructed a suitable system of
 water-works and that the same be con-
 structed as near as practical upon the
 following plan to-wit:

A suitable reservoir of 60,000 gallons
 capacity to be constructed at the top of
 what is known as the Shelley Butte
 lying East of Shelley about 5500 feet.
 Said reservoir to be constructed by exca-
 vating the earth until Lava formation is
 reached, then to be concreted with cement
 and sand mortar. The bottom of said
 reservoir to be laid with concrete of not
 less than four (4) inches in thickness
 and the walls to be constructed of concrete
 to be not less than eight (8) inches in
 thickness and mixed and prepared accor-
 ding to approved formula for such work.
 Said reservoir to be covered in with lumber.

That the balance of the systems of
 water-works consist of a well of
 sufficient size for the uses and purposes
 of the Village of Shelley to be hereafter
 determined, and a pump house to be
 constructed upon a plan suitable
 for the purposes and in accordance with
 the plans and directions for the cons-
 truction of the same of the water-works
 committee of the Village of Shelley.

An eight (8) inch wire wound asphalt
 dipped wood pipe to be laid from the
 reservoir a distance of about 5885 feet
 on a line running westerly from said
 reservoir along the base line to the South-
 west corner of Section 33 Twp. 1 North of

Range 31 East B.M. running thence North on Section line between Sections 32 and 35, a distance of about 2700 feet to the South-line of the Shelley Townsite, running thence to the North-west corner of Block 23 of the Shelley Townsite, thence at right angles with the Oregon Short Line Railway across the right-of-way of the said Oregon Short Line Railway Company to a point on the West side of said right-of-way to the centre of State street making a total length of eight (8) inch wood main of 10835 feet from end to end.

To connect with said line of eight (8) inch pipe at the termination point as aforesaid, six (6) inch wood pipe constructed in the same manner and with the same material as the said eight (8) inch pipe shall be laid beginning on State street at the centre of the street running East and West between blocks 21 and 28, thence Northeasterly near the centre of said State street to the centre of Centre Street continuing thence with a four (4) inch wood pipe from said terminal point of the six (6) inch main, West on Centre street a distance of 1226 feet, a four (4) inch wood main as aforesaid to be laid also beginning at a point on the eight (8) inch main near the North West corner of Block 23, and running thence Northeasterly to the centre of Centre Street thence East 950 feet to the east line of the Village of Shelley.

Beginning thence at the South terminus of the six (6) inch main on State Street, 2 inch galvanized pipe shall be laid from said terminus through the centre of the street on the West street of the Village of Shelley thence North along said street a distance of 2491 feet, thence East along the centre of the street on the north boundary line 1250 feet, thence South between blocks 10 and 11 and 14 and 15 a distance of 1198 feet to the 6 inch second main.

Thence with a line of 2 inch galvanized pipe connecting connecting with the 6 inch main on State Street near the corner of block 19 running thence Westerly a distance of 875 feet connecting with main at West Street of Village, thence with a 2 inch galvanized pipe connecting with 8 inch main near the Southwest corner of block 23 and running thence a distance of 600 feet to the South East corner of block 23 thence North 627 feet to the South-West corner of block 17 thence east 660 feet to centre of the street on the east Boundary of the Village of Shelley thence North through the centre of the street on east boundary of the village, a distance of 1267 feet to the centre of the street between blocks 9 and 16, and thence with a line of 2 inch galvanized pipe connected at the terminus of the 4 inch main between blocks 16 and 17 at the East boundary of said Village and running thence east 760 feet down the centre of the street or County road and thence with a line of 2 inch galvanized pipe connecting with the 8 inch main where the same crosses the ^{South} ~~West~~ boundary line running thence West along the centre of the street a distance of 1100 feet.

All of said pipe lines, connections Valves, fire Hydrants, etc. to be hereafter shown upon a map or plan to be drawn specifying the same and said plan or map shall be hereafter adopted as the plan or map by which said system shall be constructed from the reservoir to and through the Village of Shelley.

Said system shall further consist of a pump of 35,000 gallons capacity per 24 hours and one 15 H.P. Gasoline

engine and one 12 H.P. Electric Motor.

And that for the purpose of constructing the said water-works that the proceeds of the sale of bonds heretofore voted be set aside for the express purpose of paying for said system and that deficiency warrants be issued against said bonded indebtedness in payment for materials and labor as required for the construction thereof, that said warrants draw 7% int. from date of issue until paid, that said warrants be negotiated through the Shelley Banking Co. Ltd., of Shelley, Idaho.

That all labor and materials be paid for as the bills are presented and all time checks for labor be paid semi-monthly and the Chairman and Clerk of the Board are hereby authorized to make arrangements with said Shelley Banking Co. Ltd. to pay all bills for materials aforesaid and all time checks for labor in accordance herewith; and.

Whereas, N.D. McCutcheon & Co., Limited of Idaho Falls, Idaho, have submitted a proposition to construct said water-works in accordance with above plans and specifications and as a compensation for their services in procuring the materials and in causing the construction work to be done and completed to receive 15% of the cost of said works,

Be it Resolved that the Chairman and clerk of the Board of Trustees of the Village of Shelley be and they are hereby authorized, directed and empowered to enter into a suitable contract with the said N.D. McCutcheon & Co. Ltd., of Idaho Falls, for the construction and completion of said water works system to be constructed and completed in accordance herewith adopted by unanimous vote.

A copy of the contract of agreement was read. The contract failed to place a limit upon the cost of construction. Mr. Lundell desired that a limit as to cost be inserted, also that contractors be bound to purchase materials and submit their invoices of cost same to correspond with other quotations of even date. General discussion followed. A supplemental agreement was attached to contract limiting total cost (excepting Well) to \$15000.00 also granting Village power to stop work at any time.

On motion N.C. Mickelson seconded and carried by unanimous Aye vote That contract & supplemental agreement be executed.

Contract for driving well was ordered drafted.
