  - ☐ This water right was not recommended, but should be recommended with the elements described above.

E. **REASONS SUPPORTING OBJECTION(S):** Claimed quantity is 0.33 cfs for each commercial and irrigation uses based on irrigation duty of water in *Silkey v. Tiegs*. The 37.35 afa quantity appears to be based on the amount that typically would be required for outdoor irrigation in the area. However, this quantity is not appropriate for indoor greenhouse watering. A domestic use should be designated for the home. The commercial use description should be consistent with the description in right no. 63-14 to avoid confusion.
