COMES NOW Steve Givens, being first duly sworn upon oath and states as follows:

1. I am a resident of Star, Idaho, and have lived in Idaho most of my life.
2. I am familiar with the property known as the Spring Valley Ranch.
3. My father is Orin Givens and my grandfather was Guy Givens. I spoke with them often about the Spring Valley Ranch.
4. My grandfather ran the Spring Valley Ranch for Colin McLeod from 1931 through 1942. He took care of the horses and the hayfields and worked with the irrigation of the property. The Ranch property was irrigated when my grandfather worked there, and part of his job was to irrigate the property. My father grew up on the Ranch where he learned to ride, shoot and work.

5. The first year that my grandfather worked on the ranch, he raised alfalfa seed for the McLeods.
6. In addition to the main ranch, my grandfather told me how Mr. McLeod purchased several smaller homesteads adjoining the Ranch and expanding it to the west.
7. The attached photographs are from our family photo album, which has been in my family for generations.
8. I can identify the attached photos as photos of the Spring Valley Ranch. They were taken during the time period that my grandfather ran the Ranch for the McLeods, and appear to be from the early 1930s.
9. Exhibit A is a photograph of the barn and yard with the Ranch house behind the trees.
10. Exhibit B is a photograph taken from the east above the Ranch showing the Ranch house and buildings and the cultivated fields, west and south of the Ranch house, in the same location as the fields today.
11. Exhibit C is taken from ground level on the west side of the cultivated fields looking towards the Ranch house and buildings.

COMES NOW Eldon "Red" Ward, being first duly sworn upon oath and states as follows:

1. I am a resident of Horseshoe Bend, Idaho, and I have been a resident of Idaho for most of my life. I am 83 years old and of sound mind. I make the following statement based upon personal knowledge of the facts and circumstances set forth herein below.
2. I worked for the Spring Valley Livestock Company, on the Spring Valley Ranch, from 1945 through 1977, as a farm worker and a farm manager.
3. When I began working at the Ranch, surface water was used to irrigate the area north of the ranch headquarters and the central part of the valley from diversions on Willow Creek and Spring Valley Creek.

4. Willow Creek was diverted into a ditch by damming the creek with dirt and boards. The ditch ran from the creek down to the fields and was used to irrigate the area north of the ranch headquarters, which I understand is more accurately described as the SW $\frac{1}{4}$ SE $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, and a portion of the SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 6, Township 5N of Range 2E.
5. Water was diverted from Spring Valley Creek and used to irrigate the central part of the valley below the Ranch headquarters, which I understand is more accurately described as the E $\frac{1}{2}$ of the NW $\frac{1}{4}$, the E $\frac{1}{2}$ of the SW $\frac{1}{4}$, the W $\frac{1}{2}$ of the NE $\frac{1}{4}$, the W $\frac{1}{2}$ of the SE $\frac{1}{4}$ and the NW $\frac{1}{4}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 18, Township 5N of Range 2E.
6. In the mid-1950's, the Soil Conservation District installed the head-gate structures now in Spring Valley Creek. Before the Soil Conservation District installed the structures, there was a concrete head gate in the Spring Valley Creek. From its appearance, that that head gate had obviously been there for a long period of time before the Soil Conservation structures were installed.
7. I recall speaking with Colin McLeod about the Spring Valley Creek diversion. He informed me that the old diversion was in use long before I started working at the ranch in 1945.
8. Colin McLeod also informed me that the Willow Creek ditch was being used "from the beginning." I took this to mean that it was in use before Colin McLeod bought the ranch in 1916.
9. In 1958 the B&M Equipment Company, from Caldwell, assisted in the drilling of a well west of the ranch manager's house. The well was 10 or 12 inches in diameter and was originally drilled about 350 feet deep. It was drilled deeper later.

10. The well was used to irrigate the field south of the old house and barn, and west of the current ranch manager's house. More specifically, the well was used to irrigate the W $\frac{1}{2}$ of the NE $\frac{1}{4}$ and a portion of the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 7, Township 5N of Range 2E.
11. Irrigation from that well was always done by sprinklers.
12. Originally, the well pump was a turbine pump that fed into a tank. A centrifugal pump was used to run the sprinklers.
