COMES NOW, Avimor, LLC, by and through its attorneys of record, Barker, Rosholt & Simpson, LLP, and hereby enters this MEMORANDUM IN SUPPORT OF OBJECTION. In its recommendations for water right claim nos. and 63-5386 and 63-5387, the Department of Water Resources (hereinafter "Department") recommended a priority date of February 1, 1964 – instead of February 1, 1880, as claimed by the original claimant, Spring Valley Livestock Co. (hereinafter "SVLC"). The Department's decision appears to be based upon 1964 aerial photos as the only evidence it had of beneficial use. However, given the long history of agricultural use and settlement of the property where the water rights are used, and the statements of long-time ranch employees, the priority date for 63-5386 should be 1883 and the priority date for 63-5387 should be 1890.

STATEMENT OF FACTS

On March 18, 1987, the Spring Valley Livestock Co., Inc. (hereinafter “SVLC”), owned and operated by the McLeod family – beginning when Colin McLeod purchased the property in 1916 – filed a claim for water right nos. 63-5386 and 63-5387 seeking 2.02 cfs and 1.01 cfs, respectively, for irrigation and stock water purposes with a priority date of February 1, 1880. *See Affidavit of Michael D. Wardle in Support of Avimor, LLC’s Memorandum in Support of Objection* (hereinafter “*Wardle Aff.*”) Exs. A & B. SVLC is the predecessor in interest to Avimor, LLC of the Spring Valley Ranch – the land in question. *See Wardle Aff.*, ¶¶ 11-12, Ex. I. The Department recommended that the priority date on this right be March 15, 1964 with the owner of the right being Spring Valley Livestock Company, Inc. This late priority date fails to consider the history of appropriation and beneficial water use on the property. The owner should also reflect the transfer of the property to Avimor, LLC.

The Department justified the March 15, 1964 priority date based on 1964 aerial photos showing that the land was irrigated at that time. While this is correct, the Department failed to obtain and consider evidence from earlier time periods. The McLeod family, the owners of SVLC, originally purchased the property in 1916, “Together with all irrigation ditches or laterals or water rights therein belonging or in any wise appertaining thereto.” *Id.* Ex. A; *see also* Ex. B. This added notation to the deed demonstrates that water usage and water rights were established on this property prior to 1916.

The history of settlement in the Spring Valley Ranch began much earlier than 1916. The land irrigated by Spring Valley Creek (63-5386) was originally acquired by patent from the United States in 1883. On December 10, 1883, Llewellyn Argabright purchased the east ½ of the NW ¼ and the west ½ of the NE ¼ of Section 18, Township 5N, Range 2E. *Id.* at Ex. C.

Next, on April 23, 1889, Llewellyn Argabright purchased the east ½ of the SW ¼ and the west ½ of the SE ¼ of Section 18, Township 5N, Range 2E. *Id.* Ex. F. Thus, the land irrigated by water right 63-5386 should have a water right of 1883.

The land irrigated by Willow Creek (63-5387) was obtained from the United States. That year Charles Hurt acquired the SE ¼ of the NW ¼ and the west ½ of the NE ¼ of Section 7, and the SW ¼ of the SE ¼ of Section 6, Township 5N, Range 2E. *Id.* Ex. G. In 1896, William Hurt purchased the east ½ of the SE ¼, the NW ¼ of the SE ¼, and the NE ¼ of the SW ¼ of Section 6, Township 5N, Range 2E. *Id.* Ex. H. The Willow Creek water right 63-5387 should have a 1890 priority date, reflecting the purchase of this property.

While the date of original settlement of the area is unclear, what is clear is that in the 1880's the Spring Valley Ranch area was a thriving community.

The Spring Valley Ranch (Field No.'s 32-34) area located on the northern edge of *the county apparently was a thriving community* (once known as Howell) boasting a general store, blacksmith shop and post office. Remnants of an old road which extended to Pearl are still visible to the east of the main house. Both Howell and the road appear on an 1890 map of the area. The ranch currently exists on a massive gabled barn constructed with hewn joints and wooden pegs and a well preserved folk Victorian house. Portions of this ranch also lie within Boise County.

Id. Ex. D (emphasis added); *see also Id.* Ex. E (1897 USGS map indicating showing community of Howell).

The McLeod family, in association with W.J. Hodgson, acquired the following property on October 4, 1916: (1) the east ½ of each of the SW ¼, Section 6, the NW ¼ and SW ¼ of Section 7, and the NW ¼ and SW ¼ of Section 18; (2) the SW ¼ of the SW ¼ of Section 6; and (3) the west ½ of each of the NE ¼ and SE ¼ of Section 7, and the NE ¼ and SE ¼ of Section 18 – all in Township 5N of Range 2E. *See Id.* Ex. A. On November 16, 1917, Colin McLeod acquired W.J. Hodgson's interest in the property. *See Id.* Ex. B. Each of these transfers included

expressly all water rights, irrigation ditches and laterals. *Id.* Exs. A & B. This purchase included land irrigated with water rights nos. 63-5386 and 63-5387.

The McLeod family ran the ranch for until it was purchased by Avimor, LLC, in 2003. *See Id.*, ¶ 11. Throughout those years, the McLeod's had a number of ranch managers, and their family members, who became personally familiar with the irrigation system. Steve Givens' grandfather, Guy Givens, ran the Spring Valley Ranch from 1931 through 1942. Steve spoke often with his father, Orin Givens, and grandfather about life on the ranch. *See Affidavit of Steve Given.* Steve's father and grandfather spoke about working in the hayfields and with the irrigation system on the property. *Id.* Guy Givens informed Steve Givens that the McLeods raised alfalfa seed when he first started work in 1931. *Id.* Steve Givens has authenticated family photos taken in the early 1930's which depict the ranch house, barn and neighboring fields. *Id.* Exs. A-C.

Eldon "Red" Ward worked on the Spring Valley Ranch as a farm worker and/or manager from 1945 through 1977. *See Affidavit of Eldon "Red" Ward.* Speaking of the surface water irrigation system from Spring Valley Creek, Ward remembers that:

Surface water was used to irrigate the area north of the ranch headquarters and the central part of the valley from diversions on Willow Creek and Spring Valley Creek. There was a concrete head gate in the Spring Valley Creek before the Soil Conservation District installed the structures now in the creek. This occurred in the mid-1950's.

I recall speaking with Colin McLeod about the Spring Valley Creek diversion. He informed me that the diversion was in use long before I started working at the ranch in 1945.

ARGUMENT

I. Water has Been used to Irrigate the Land of Spring Valley Ranch Since the late 1800's. The Priority Date for Water Right 63-5386 Should be 1883 and for Water Right 63-5387 Should be 1890.

The Director's recommendation of a priority date of February 1, 1964 should be rejected.

The priority date will be set at the date that a claimant shows that the water was first diverted and placed to a beneficial use. *See* I.C. § 42-106; *Rabido v. Furey*, 33 Idaho 56, 190 P. 73 (1920).

Given the history of the area, the date must be at least January 7, 1896.

The property in Section 6, wherein water right 63-5387 is beneficially used, was originally settled in 1890 (southern portion) by Charles Hurt and 1896 (northern portion) by William Hurt. *See Wardle Aff. Exs. G & H.* The property in Section 18 irrigated from Spring Valley Creek was acquired as farm and ranch ground in 1883. Further, the Spring Valley Ranch area, formerly known as Howell, was a "thriving community" by *at least* 1890. *See Wardle Aff. Ex. D.* At that time, it is known that there was a "general store, blacksmith shop and post office," in addition to the "main house." *Id.* How could anyone maintain a "thriving community" or settle on the land without water? In fact, it would have been imperative that water be diverted to the Spring Valley Ranch area, and specifically the areas in Section 6 covered by this water right, no later than January 7, 1896 – when the last portion of the property was purchased by William Hurt.

Furthermore, the irrigation system and associated water rights had long been in place when Colin McLeod first acquired the property in 1916. *Id.* at Exs. A & B. In fact, the indenture transferring the property to Colin McLeod signed recognized the existence of "irrigation ditches or laterals or water rights" on the property. *Id.* Red Ward, a ranch manager

on Spring Valley Ranch for over 30-years, recalls that not only was the diversion system, diverting water from Spring Valley Creek, in place when he started in 1945, but Colin McLeod personally informed him that the diversion system was there “from the beginning.” *See Ward Aff.* As such, given the history of the land in question, the priority date of diversions should be January 1, 1890.

II. Title to the water right should be in Avimor, LLC.

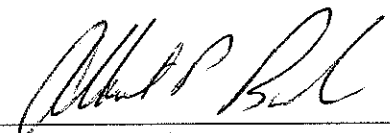

On July 27, 2003, Avimor, LLC, as beneficiary to a trust, acquired interest in the property in question along with all water rights. *See Wardle Aff.*, ¶ 11. SunCor Idaho is now Avimor, LLC. *Id.*, ¶ 12, Ex. I. Since SVLC no longer has any interest in this water right, title should be in Avimor, LLC.

CONCLUSION

Water has been diverted and beneficially used on the portions of Section 6 in question since at least January 7, 1896 when the area was a “thriving community” and after Charles and William Hurt had acquired and settled on the land. Therefore, the priority date recommended by the director should be rejected and the priority date for the Willow Creek water right 63-5387 should be 1890 and the priority date for the Spring Valley Creek water right 63-5386 should be 1884.

COMES NOW, MICHAEL D. WARDLE, being first duly sworn upon oath and states as follows:

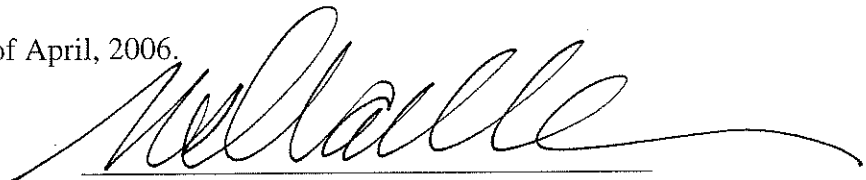

1. I am the Vice President, Planning and Governmental Affairs for Avimor, LLC. The exhibits attached hereto are from the files and records maintained by Avimor in relation to the Spring Valley Ranch property.
2. Attached hereto as Exhibit A is a true and correct copy of an Indenture dated October 4, 1916, wherein Colin McLeod and W.J. Hodgson first acquired property in the Spring Valley Ranch – specifically, (1) the east ½ of each of the SW¼, Section 6, the NW¼ and SW¼ of Section 7, and the NW¼ and SW¼ of Section 18; (2) the SW¼ SW ¼ of Section 6; and (3) the west ½ of each of the NE¼ and SE¼ of Section 7, and the NE¼ and SE¼ of Section 18 – all in Township 5N of Range 2E. The Indenture also conveys “all

irrigation ditches or laterals or water rights therein belonging or in any wise appertaining thereto,” suggesting that water rights had been obtained by the time of transfer.

3. Attached hereto as Exhibit B is a true and correct copy of an Indenture dated November 16, 1917, wherein Colin McLeod acquired W.J. Hodgson’s interest in the Spring Valley Ranch. This Indenture also conveyed “all irrigation ditches or laterals or water rights therein or belonging in any wise appertaining thereto,” suggesting that water rights had been obtained by the time of transfer.
4. Attached hereto as Exhibit C is a true and correct copy of an Indenture dated December 10, 1883, and a United States Land Patent Certificate dated May 15, 1884, wherein Llewellyn Argabright acquired the east ½ of the NW ¼ and the west ½ of the NE ¼ of Section 18, Township 5N, Range 2E (containing 160 acres).
5. Attached hereto as Exhibit D is a true and correct copy of an excerpt from “Ada County Historic Resources: A Reconnaissance Survey,” dated August 1989 and prepared by Belinda Davis/Barbara Perry Bauer and the Ada County Development Services Department for the Ada County Historic Preservation Council. This excerpt describes the Spring Valley Ranch area in the 1890s.
6. Attached hereto as Exhibit E is a true and correct copy of the United States Geological Services Map of 1897 showing the community of Howell (which was located where Spring Valley Ranch is now located). A portion of the land that became the Spring Valley Ranch was originally patented by Eliza Howell. That land is immediately adjacent to the land patented by Hurt in Spring Valley.

7. Attached hereto as Exhibit F is a true and correct copy of an Indenture dated April 23, 1889, wherein Llewellyn Argabright acquired the east ½ of the SW¼ and the west ½ of the SE¼ of Section 18, Township 5N, Range 2E.
8. Attached hereto as Exhibit G is a true and correct copy of an Indenture and a Homestead Certificate, each dated September 13, 1890, wherein Charles Hurt acquired the SE¼ of the NW¼ and the west ½ of the NE¼ of Section 7, and the SW¼ SE¼ of Section 6, Township 5N, Range 2E.
9. Attached hereto as Exhibit H is a true and correct copy of a United States Land Patent Certificate dated January 07, 1896, wherein William Hurt acquired the east ½ of the SE ¼, the NW ¼ of the SE ¼, and the NE ¼ of the SW ¼ of Section 6, Township 5N, Range 2E.
10. The Spring Valley property originally patented by Argabright, Hurt and Howell all passed to McLeod through the transactions set out in Exhibits A & B hereto.
11. On or about July 27, 2003, the Spring Valley Ranch property and all appurtenant water rights were transferred from McLeod to First American Title in trust for SunCor Idaho, LLC.
12. On or about March 7, 2006 SunCor Idaho, LLC filed articles of amendment changing its name to Avimor, LLC. A true and correct copy of the articles of amendment are attached hereto as Exhibit I.

DATED THIS 20th day of April, 2006.

There were not many properties located around the Dry Creek area, but Dry Creek is a unique area where a small farming community was once located. Two properties inventoried there are the Pedro Echanove house, a National pyramidal-styled structure (Field No. 48) constructed of quarried stone and the Sam Goldbloom house, a National-style farmhouse (Field No. 50).

The Spring Valley Ranch (Field No.'s 32-34) area located on the northern edge of the county apparently was a thriving community (once known as Howell) boasting a general store, blacksmith shop and post office. Remnants of an old road which extended to Pearl are still visible to the east of the main house. Both Howell and the road appear on an 1890 map of the area. The ranch currently exists of a massive gabled barn constructed with hewn joints and wooden pegs and a well preserved folk Victorian house. Portions of this ranch also lie within Boise County.

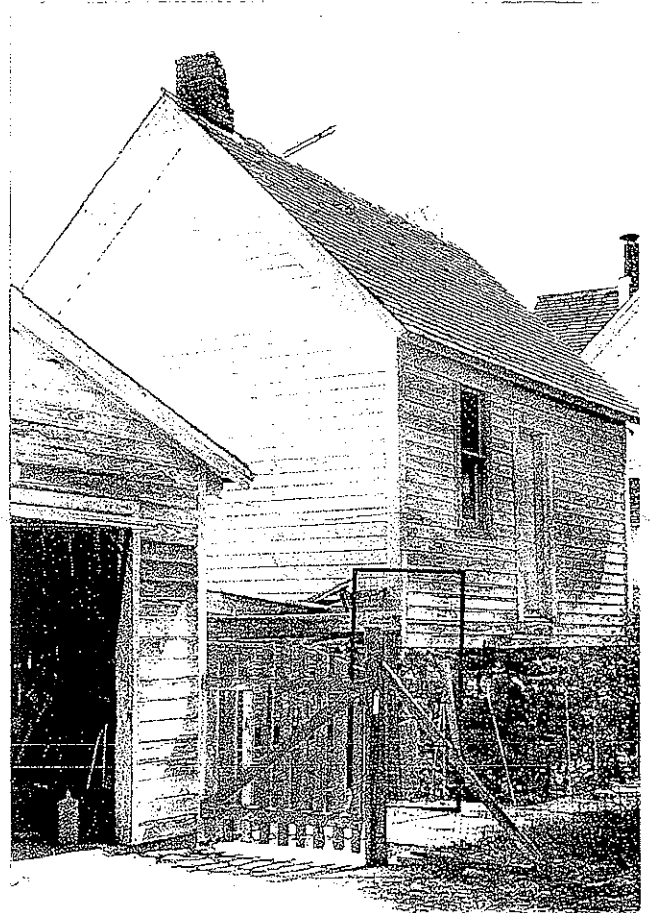

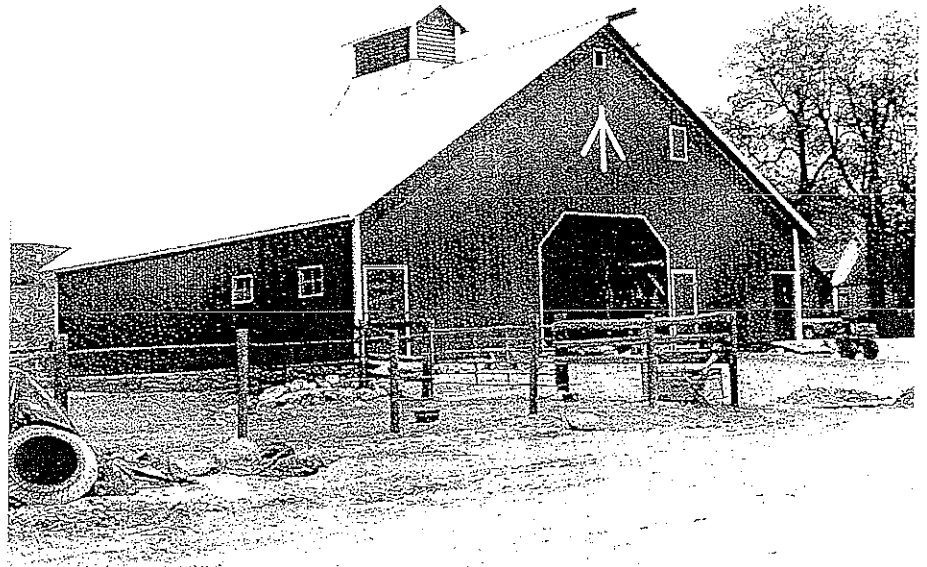

The aforementioned areas, in addition to others not mentioned here, do have potential historical value and could best be approached by first researching documents to determine what types of sites are likely to occur and following up with a pedestrian survey.

Under the present Phase II Reconnaissance Survey, eleven sites were determined to be eligible for listing in the National Register of Historic Places. They are: 1) Dallas Forrey Lava Rock Structure (Field No. 37), 2) Delbert McFarland House (Field No. 70), 3) Linder Road National House with turned posts (Field No. 70), 4) Craftsman House with wagon wheels (Field No. 79), 5) Ustick Road Prairie House with pine trees (Field No. 100), 6) White Cross School (Field No. 112), 7) John D. Turnball House (Field No. 127), 8) Cosgrove House (Field No. 146), 9) Herridge House (Field No. 159), 10) Star Depot (Field No. 159), and 11) Hipped Roof Craftsman House (Field No. 63). Eighteen sites were determined to be not eligible for listing and 116 sites remain unevaluated. These figures do not include the re-recording of sites reviewed during Phase I of the project.

The consultants recommend that the eleven sites mentioned above should undergo further research in order to more fully document their historic significance in terms of the National Register criteria.

There are some areas where architectural properties were not found. The area south of Kuna-Mora Road and west of Swan Falls Road to the county line did not produce any areas of architectural significance. Also, the area between South Cloverdale Road east to I-84 did not produce many architectural structures. These areas consist mainly of rangelands with few or no amenities to attract settlement. Since no significant architectural properties were identified, these areas should be removed from further consideration of such properties. On the other hand, in future Ada County studies it is recommended that a field inspection be conducted specifically to identify archaeological and historical sites which may be within Ada County's jurisdiction. Suggested areas in the Ada County Reconnaissance Survey area south of Kuna and the undeveloped lands comprising the eastern and northern edges of the county.

COMES NOW Steve Givens, being first duly sworn upon oath and states as follows:

1. I am a resident of Star, Idaho, and have lived in Idaho most of my life.
2. I am familiar with the property known as the Spring Valley Ranch.
3. My father is Orin Givens and my grandfather was Guy Givens. I spoke with them often about the Spring Valley Ranch.
4. My grandfather ran the Spring Valley Ranch for Colin McLeod from 1931 through 1942. He took care of the horses and the hayfields and worked with the irrigation of the property. The Ranch property was irrigated when my grandfather worked there, and part of his job was to irrigate the property. My father grew up on the Ranch where he learned to ride, shoot and work.

5. The first year that my grandfather worked on the ranch, he raised alfalfa seed for the McLeods.
6. In addition to the main ranch, my grandfather told me how Mr. McLeod purchased several smaller homesteads adjoining the Ranch and expanding it to the west.
7. The attached photographs are from our family photo album, which has been in my family for generations.
8. I can identify the attached photos as photos of the Spring Valley Ranch. They were taken during the time period that my grandfather ran the Ranch for the McLeods, and appear to be from the early 1930s.
9. Exhibit A is a photograph of the barn and yard with the Ranch house behind the trees.
10. Exhibit B is a photograph taken from the east above the Ranch showing the Ranch house and buildings and the cultivated fields, west and south of the Ranch house, in the same location as the fields today.
11. Exhibit C is taken from ground level on the west side of the cultivated fields looking towards the Ranch house and buildings.

COMES NOW Eldon "Red" Ward, being first duly sworn upon oath and states as follows:

1. I am a resident of Horseshoe Bend, Idaho, and I have been a resident of Idaho for most of my life. I am 83 years old and of sound mind. I make the following statement based upon personal knowledge of the facts and circumstances set forth herein below.
2. I worked for the Spring Valley Livestock Company, on the Spring Valley Ranch, from 1945 through 1977, as a farm worker and a farm manager.
3. When I began working at the Ranch, surface water was used to irrigate the area north of the ranch headquarters and the central part of the valley from diversions on Willow Creek and Spring Valley Creek.

4. Willow Creek was diverted into a ditch by damming the creek with dirt and boards. The ditch ran from the creek down to the fields and was used to irrigate the area north of the ranch headquarters, which I understand is more accurately described as the SW $\frac{1}{4}$ SE $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, and a portion of the SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 6, Township 5N of Range 2E.
5. Water was diverted from Spring Valley Creek and used to irrigate the central part of the valley below the Ranch headquarters, which I understand is more accurately described as the E $\frac{1}{2}$ of the NW $\frac{1}{4}$, the E $\frac{1}{2}$ of the SW $\frac{1}{4}$, the W $\frac{1}{2}$ of the NE $\frac{1}{4}$, the W $\frac{1}{2}$ of the SE $\frac{1}{4}$ and the NW $\frac{1}{4}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 18, Township 5N of Range 2E.
6. In the mid-1950's, the Soil Conservation District installed the head-gate structures now in Spring Valley Creek. Before the Soil Conservation District installed the structures, there was a concrete head gate in the Spring Valley Creek. From its appearance, that that head gate had obviously been there for a long period of time before the Soil Conservation structures were installed.
7. I recall speaking with Colin McLeod about the Spring Valley Creek diversion. He informed me that the old diversion was in use long before I started working at the ranch in 1945.
8. Colin McLeod also informed me that the Willow Creek ditch was being used "from the beginning." I took this to mean that it was in use before Colin McLeod bought the ranch in 1916.
9. In 1958 the B&M Equipment Company, from Caldwell, assisted in the drilling of a well west of the ranch manager's house. The well was 10 or 12 inches in diameter and was originally drilled about 350 feet deep. It was drilled deeper later.

10. The well was used to irrigate the field south of the old house and barn, and west of the current ranch manager's house. More specifically, the well was used to irrigate the W½ of the NE¼ and a portion of the NW¼ NE¼ of Section 7, Township 5N of Range 2E.
11. Irrigation from that well was always done by sprinklers.
12. Originally, the well pump was a turbine pump that fed into a tank. A centrifugal pump was used to run the sprinklers.
