  - ☐ This water right was not recommended, but should be recommended with the elements described above.

**E. REASONS SUPPORTING OBJECTION(S):** The quantity for fire protection should be additional, rather than included in other uses. Since the water use includes inside domestic uses at a mobile home park, domestic use should be identified in addition to commercial use. It should be noted that the domestic/commercial use includes lawn watering in addition to the 3 acres of irrigation. The standard irrigation season should be designated, at least as an accomplished transfer. The place of use should include individual lot lawn acreage. Ground water is not combined with Nampa-Meridian Irrigation District water.
