RE: NOTICE OF ERROR FILING FOR WR # 29-7289

Dear Mr. Campbell:

Thank you for taking the opportunity of returning the "notice of error" reply. Upon it you indicate that the source was incorrectly identified and that there were two wells not one. Further conversations confirmed that there are two wells but that one of them serves as an injection well.

Given the information provided, I have updated the recommendation for the wells. The water right only pertains to well #1, which is the production well. Well #2 is the injection well and does not really pertain to the water right. However, in the interest of the information provided, I have included a comment including the legal description of the location of the well and have also included it upon the provided layout.

If you have any questions regarding this matter, please feel free to call me at 525-7161.

Respectfully submitted,

W. Roger Warner
Adjudication Specialist
