Subject: Notice of Error Reply.

Dear Mr. Jenkins:

On your notice of error response there was a note about the additional acreage irrigated in the NWNW of section 22, township 8 south, range 38 east of the Boise Meridian. Stan Wistisen filed the original application for permit in May of 1977 he didn't include the property in section 22. When our field examiner was out in September of 1982 he noted that the land in section 22 was being irrigated.

The Department sent Stan Wistisen an application to amend the permit on July 22, 1986 and again on August 25th and the Department didn't receive a reply so it was not included under the license. I've enclosed both letters for your information.

Then secondly, this land wasn't claimed in the Bancroft-Lund Adjudication, civil case number 2919. This was a general adjudication that required any valid irrigation claims to be filed on in the adjudication. The final decree was issued in 1992, which is after the beginning of the Snake River Basin Adjudication in 1987. Since it was not claimed in the prior adjudication we cannot recommend it in this adjudication because it has been forfeited in the Bancroft-Lund Adjudication. The property in section 22 cannot be irrigated from this source.

If you have any question please feel free to contract me at 547-3993.

Sincerely;

Cindy E. Bird
Adjudication Bureau

Dear Permit Holder:

On July 22, 1986, we forwarded to you an Amendment for Water Permit so that you could amend your permit to correspond with the findings of the Department's field examiner.

As of this date, we have not received this amendment.

If we do not receive the amendment within fifteen (15) days, we will issue a Water Right License which reduces the amount that could have been allowable to you.
