Attention Mr. A. Ruberry:

Dear Mr. Ruberry:

I was unable to attend the meetings that were scheduled in the papers that were sent awhile back. I am concerned about a water right that was not among the papers you sent me. On the map it shows the three water rights of 29-07430, which are fine.

Right number 29-7174-power generation
Right number 29-7247- power generation
Right number 29-7430- ground water for domestic & irrigation.

I was wondering if the 29-7430 if also for the well I have at my house location at 81 Front Street, McCammon, Idaho. I can find only one permit, so I thought it was for both , the across the river from me as the map shows and the one on the other side of the river by my house. If it isn't the same permit I don't know this permits number. I have used the well for many years as a water source for my house, and would like to find the permit number. My husband had the permit paper somewhere but must of got misplaced after he died in 1990. I remember visiting your offices in Idaho Falls, a number of years ago and it was found then I had permits of all the wells.

I would like to find this out before the April settlement date if possible , if the other permit number is in your records. The well is important to me and I need to find out about it.

I work at ISU, Early Learning Center Mon- Friday from 8:30 A.M. to 2 P.M. My phone number there is 208-254-3325

Im usually home around2:30p.m. and on in the afternoons. Home usually on weekends.
Home Phone- 208-254-3325. If Im not here one of my older children could take a message.

If I need to travel to your offices I will, if you need me to.

Sincerely,

Sharon Skeem
