Re: Adjudication Claims 29-7480, 29-7586

Dear Mr. Smith:

When these two rights were licensed, they were licensed to partially overlap one another. Both rights are licensed out of the same well.

To more accurately reflect what appears to be the historical use of these rights, and to give you some flexibility in the use of the rights, I would like to recommend both rights to the same place of use on a "permissible place of use" basis. The attached map shows the proposed place of use for both rights in combination.

Each right will bear a remark limiting it to the original licensed acreage. This will not affect the use or administration of these rights, but will clarify what the original right was, in case you ever want to transfer one of the rights to a new use.

Unless I hear from you, I plan to go ahead and recommend the rights as shown on the map. You may contact me at 525-7161. I'm hard to catch but I will return your calls.

Sincerely,

Bryce A. Contor
Senior Water Resource Agent
