RE: 29-7482, Sunbeam Water Co.

Mr. Parrish,

Pursuant to your letter of August 6, 2003, I have reviewed the Department's record for license 29-7482 in the name of Sunbeam Water Co. The license clearly indicates the domestic use is for 17 units in the SWNW and NWSW of Section 1, Twp 08S, Rge 31E. This is consistent with the recommendation in the Snake River Basin Adjudication mailed to your client in February of this year.

Your letter indicates more than 17 homes are connect to the subdivision's water system. Since the number of homes covered by license 29-7482 cannot be increased, your client will need to file an application for permit for the additional homes to include lots that are stubbed into the water system but not currently developed. The number of new homes can reflect expected developed for the next five years.

For your convenience I have included an Application for Permit with instructions. If you have question on completion of the application please call either Roger Warner or Keith Wilson at this office.

Feel free to call me if you have questions concerning other information reflected on the recommendation.

Respectfully yours,

Ernest Carlsen
Water Rights Supervisor
