Notice or Error

1. Enclosed is an updated aerial photograph with the land that is watered from permit 29-7591. The document provided by IDWR is inaccurate, as some of the highlighted areas are either no longer owned by the Kopp family, are public land, or no longer irrigated. The map provided by Fred L Kopp is and always has been watered under this water permit since it was obtained.
2. We request the changes be made per the map provided, and Sections A-D be entered as land to be irrigated from permit 29-7591. Also note the differences between the IDWR map and the map provided by Fred L Kopp. The map from IDWR is very outdated and does not reflect recent changes to the land.
3. Several areas highlighted in the IDWR map have either been sold, treated to stop growth, fire boundaries, public land, livestock corals, storage areas, or irrigated from another well (domestic areas), and not watered from Permit 29-7591.

Please note, the land is now under a Deed of Trust between Fred and Esther Kopp and Blaine M. Kopp. Additionally, in the near future Heath M Kopp will also be apart of the Deed of Trust.

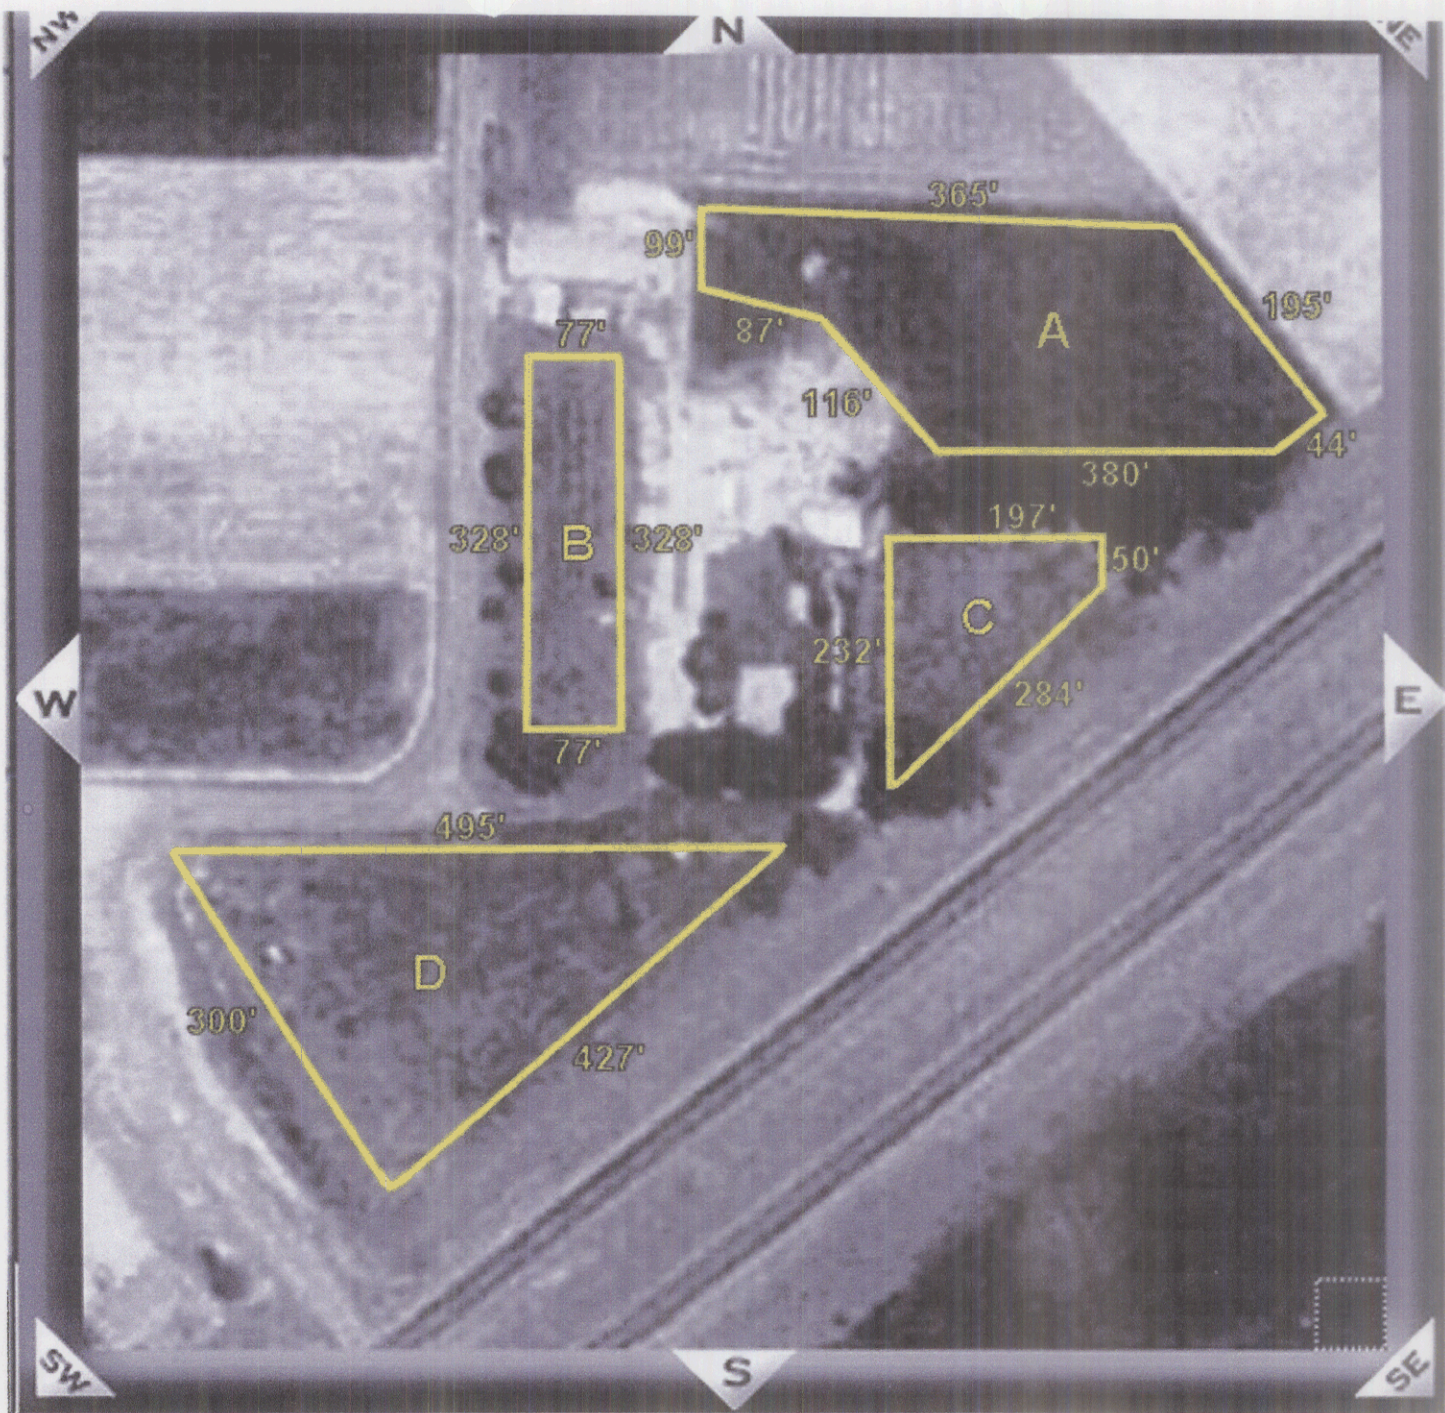

Sincerely,

Fred L. Kopp

Heath M. Kopp

The areas highlighted indicate the property in which Fred L Kopp irrigates from Water Right Permit No. 29-7591. Measurements (in feet) of each irrigated section are provided in the map and below. The areas outside of these boundaries have either been treated to stop growth, are fire boundaries, public land, livestock corals, driveways, storage areas, or irrigated from another well (Domestic), and are not watered from Water Right Permit No. 29-7591.
