Claim A27-7008A

Subject: Ownership change, nature of use change.

**Response Date: February 9, 2004**

Dear Claimant(s):

Rhone-Poulenc filed an SRBA claim in January of 1990 for water from the Blackfoot for the use of Industrial. The Caribou County Assessors office has advised us that you are the new owner of this property. Was the water right conveyed to you when the property was purchased? Is the water still being used for Industrial? Has the use changed?

A water right owner who has made a change in use of a water right prior to commencement of the SRBA without obtaining IDWR approval may claim the change in the SRBA. IDWR may recommend the right as changed, however, only if the change meets certain requirements. One of those requirements is that the changes not result in injury to other water rights, or that the change be conditioned to prevent injury to other water rights.

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and some evidence tending to support that date. If the change was made before November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987.

If the water was conveyed and still being used then the enclosed change of ownership form 42-248/42-1409(6) needs to be filled out and return to my office by the above response date. Please fill out the yellow highlighted areas, sign and return it my office with a copy of your warranty deed and either a copy of a plat map, survey map or aerial photography with the area marked.

If you have any additional questions, please feel free to contact me in the Soda Springs office at 547-3993.

Respectfully,

Cindy E. Bird
