Dear Roxanne,

RE: Water Right Claim #7511627 in the names of Suzanne and Dale Anich. We are submitting additional information with respect to evidence of the priority date of 5-22-1913. Richard Holmes settled the Little Fourth of July Creek property on 8-1-1903. I have enclosed the homestead application. Our property and our neighbor's property were all part of the Richard Holmes Patent. Downstream Rob and Cindy Hallen's water rights are decreed with a date of 5-20-1913 and upstream Arnie Vetrhus water rights are decreed with a date of 5-22-1913. The ditches run through our property. I have also enclosed a notarized document from Joyce Munkres (84) and daughter Pat Jones (68). Joyce Munkres lived on our property from 1937 – 1955 and Pat Jones was born in the old cabin that still stands on the property. They irrigated the property during the years they owned it. Prior to that Joyce Munkres in-laws, Pat Jones Grandparents, Frank and Leah Munkres owned the property from March 18th of 1918 and Joyce Munkres knew that they irrigated the property.

I am obtaining further documentation from another source that lived on the property during the 1980's. I will forward when available.

Please add this information to our file.

Thank you,

Dale Anich

Form 110.

UNITED STATES DEPARTMENT OF AGRICULTURE
FOREST SERVICE

REPORT ON AGRICULTURAL HOMESTEAD APPLICATIONS.

Application #30

July 8, Sept 18, 1908. Salmon National Forest Reserve.

1. Name and address of applicant: Richard Holmes, Carmen, Idaho. (Lemhi Co.)
(If already on land, give date of settlement.)

Alleges settlement August 1, 1903.

2. Location: Land is located on Fourth of July Creek about 3 miles
(Legal subdivision, or by notes and bounds. Relation to highways, rivers, railroads, etc. Proximity and importance of towns, settlements, etc.)
above the confluence of this stream with Salmon River. More
definitely described by legal sub-divisions as follows: N 1/2
SE 1/4 SE 1/4; NE 1/4 SE 1/4; E 1/2 SE 1/4 NE 1/4 and E 1/2 NE
1/4 NE 1/4 Section 25 Twp. 24 N, R 21 E. Boise Meridian.

more and, Reclamation of survey pending in G. A. C.

3. Area: Approximately 100 acres more or less.

(Applied for, reported on, and recommended.)

8-1001

List 4-68

8. Claims: No conflicting claims. Land was squatted on by claimant
(Conflicting claims to land or existing improvements—by whom and on what grounds. Examiner is not to pass upon claims—merely to furnish all available information. Use in the past, and by what means. Existence of mining claims.)
and has been used by him as a home since date of settlement.

No mining claims.

9. Economic possibilities: Agricultural possibilities are limited only by
(Reason for application, and opinion as to success of applicants' plans. State fully agricultural possibilities. Value, the area of the land. Not needed for administrative purposes. If any, to Forest Service for Rangers' Quarters or other administrative purposes. Distances and market prices per acre of nearby farms. Transportation facilities.)
the area of the land. Not needed for administrative purposes.
Adjoining farms worth \$35 to \$40 per acre. Transportation all
by wagon. Applicant wishes to file on land and get a patent.

10. Recommendations: I recommend that the land be listed because
(Specific recommendation for or against listing of land, with summary of reasons for recommendation.)
applicant has shown good faith. And the land is more valuable
for agricultural than any other purposes.

11. Photographs: None.
(Give numbers of negatives which go with this report.)

(Signed) James M. Ryan.
(Signature of examining officer.)

Dep. For. Supervisor.
(Title.)

Approved: February 27, 1909. B. L. S.

Geo. B. Bantz
(In charge, Examination.)

Approved: Mar 4, 1909

T. C. H.
(In charge, Office of Reserve Organization.)

4. Topography: 50 acres of smooth tillable land and 50 acres of steep pasture land. 20 acres northern slope, 80 acres southern slope. Open basin at forks of creek.

(Topography of tract applied for, and relation to surrounding territory. Topography should be considered particularly in its bearing on agricultural possibilities, slope, aspect, etc.)

5. Formation: Soil, rich black loam on creek bottom. Gravel and loam on steeper slopes. Sufficient water on the land for irrigation and domestic use. Possibilities for developing water.

(Nature and extent of soil, rock, etc., paying particular attention to their influence on agricultural possibilities. Presence of water for irrigation and domestic use. Possibilities for developing water.)

6. Climate: Mild. Precipitation moderate. No killing frosts during growing season.

(Precipitation, temperature, occurrence of killing frosts.)

7. Cover: No cover, except a few scattering Douglas Fir and Yellow pine on 10 acres of northern slope. Estimated to be 60 cords of wood @ 50¢. Easily accessible. 20 miles from Salmon market. Cover is not needed for protective purposes.

(Nature and extent of cover, with estimate of amount and value. Accessibility and distance to market. Is cover needed for protective or sneding purposes?)

MAP SHEET.

Tp. 24. N. R. 21. E. B. Section 25, Quarter Scale: 8 inches = 1 mile.

Sketch map, in colored pencil, of the area applied for on a scale of 4 inches to the mile, showing topography, cover, roads, trails, agricultural land, and improvements. At least one-half mile of surrounding country should be sketched in.
