BRIEF EXPLANATION FOR RESPONSE.

In its Amended Objection filed on or about November 19, 2003, claimant City of Pocatello alleged that "all ground water points of diversion" should be included in this surface water right. Respondent is unaware of any basis for including Pocatello's ground water points of diversion as an element for this surface water right, or for including such a remark stating the same, and therefore opposes the same.

In its Amended Objection filed on or about November 19, 2003, claimant City of Pocatello alleged that the "place of uses is within the service area of the City of Pocatello municipal water supply system as provided for under Idaho law, including all lands necessary to complete the beneficial use of this municipal water right." Respondent is unaware of any basis for changing the place of use under this surface water right to the vague and undescribed place of use alleged by Pocatello, or for including such a remark stating the same, and therefore Respondent opposes the same.

In its Amended Objection filed on or about November 19, 2003, claimant City of Pocatello

requested the inclusion of a general provisions regarding "source, quantity, priority date and purpose of use" that relates to Pocatello's reservoir and tank storage facilities. Respondent is unaware of any basis for the inclusion of such general provision and therefore opposes it as unnecessary to define or administer the water right.

In its Amended Objection filed on or about November 19, 2003, claimant City of Pocatello requested the inclusion of a general provisions regarding "source, quantity, priority date and purpose of use" that relate to "separate streams" and "separate administration". Respondent is unaware of any basis for the inclusion of such general provisions and therefore opposes them as unnecessary to define or administer the water right. In addition, Respondent opposes Pocatello's definition of the source for the point of diversion under this right, including the allegation that the right is "legally and physically available" from ground water sources in Basin 29.

With respect to Pocatello's objection regarding a "Swan Falls" general provision, Respondent understands that this objection has been separated from Basin 29 and consolidated with similar objections as Consolidated Subcase 92-37. Accordingly, Respondent understands that this issue will not be addressed in this subcase and hereby reserves the right to participate in Consolidated Subcase 92-37.
