REASONS SUPPORTING RESPONSES

D. 2, 3, 4 and 7 - Source, Quantity, Priority Date and Purpose of Use:

In its Amended Objection, the City of Pocatello objects to the recommendation in regard to these elements on the basis that it did not include a remark that the water under this right can be stored in various reservoir and tank storage facilities, including water from all other sources available to the City of Pocatello. Respondents are unaware of any basis for the inclusion of such a remark regarding the City of Pocatello's water distribution facilities, and opposes this proposed change for the further reason that this right is for irrigation purposes, and should not be commingled with the municipal water of the City of Pocatello.

Objector further states that this water right should have been recommended with a general provision that this water right should not be considered junior to water rights from the Portneuf River and should be administered separately from all other water rights in Basin 29, and that said water right should be decreed with the general provision that all of the City's sources of water in Basin 29 should be administered separately from all other water rights in Basin 29. Objector further objects that the recommendation of this right did not include a general provision addressing the Swan Falls rights of Idaho Power Company as set forth in Consolidated Subcase No. 37-02499. Respondents oppose objector's definition of the source of the point of diversion under this right, including the allegation that the right is legally and physically available from ground water sources in Basin 29, and that Swan Falls issues should be addressed in a general provision for the reason that this issue will be addressed in Consolidate Subcase No. 92-37 in the SRBA.

Objector, City of Pocatello, has failed to state any reason for changing the purpose of use as no factual or legal basis upon the purpose of use of this water right can or should be changed.

D. 7 – Purpose(s) of Use:

Objector, City of Pocatello, objects to the purposes of use as irrigation, and seeks to change it to “municipal.” Pocatello submits no factual or legal basis by which an irrigation right, whether held by a city or any other entity, can be changed to a “municipal” water right, and respondents therefore object to any change in the purpose of use.

D. 9 – Place of Use:

The Objection of the City of Pocatello objects that the place of use in the recommendation did not include the entire “municipal service area” of the City, including all lands necessary to complete the beneficial use of the municipal water right. As previously stated, this is not a municipal water right, and there is no basis by which the City of Pocatello may show the place of use as the entire surface area, as such change in the water right would be a significant and substantial expansion of the nature of use and the duty of water under this water right.
