REASONS SUPPORTING RESPONSES

D. 2, 3, 4 and 7 - Source, Quantity, Priority Date and Purpose of Use:

In its Amended Objection, the City of Pocatello objects to the recommendation in regard to these elements on the basis that it did not include a remark that the water under this right can be stored in various reservoir and tank storage facilities, including water from all other sources available to the City of Pocatello. Respondents are unaware of any basis for the inclusion of such a remark regarding the City of Pocatello's water distribution facilities, and opposes this proposed change for the further reason that this right is for irrigation purposes, and should not be commingled with the municipal water of the City of Pocatello.

Objector further states that this water right should have been recommended with a general provision that this water right should not be considered junior to water rights from the Portneuf River and should be administered separately from all other water rights in Basin 29, and that said water right should be decreed with the general provision that all of the City's sources of water in Basin 29 should be administered separately from all other water rights in Basin 29. Objector further objects that the recommendation of this right did not include a general provision addressing the Swan Falls rights of Idaho Power Company as set forth in Consolidated Subcase No. 37-02499. Respondents oppose objector's definition of the source of the point of diversion under this right, including the allegation that the right is legally and physically available from ground water sources in Basin 29, and that Swan Falls issues should be addressed in a general provision for the reason that this issue will be addressed in Consolidate Subcase No. 92-37 in the SRBA.

Objector, City of Pocatello, has failed to state any reason for changing the purpose of use

as no factual or legal basis upon the purpose of use of this water right can or should be changed.

D.3 – Quantity:

The use of wastewater requires a water right in the same manner as any other diversion of water, and therefore the quantity should be as shown. Objector has provided no factual or legal basis upon which diversion and volume limits do not apply.

D.7 – Purpose of Use:

The purpose of use of wastewater is limited. This wastewater is used as a supplement to the irrigation water available to the lands described. It should be shown as a supplemental use. The Objector City of Pocatello has provided no legal or factual basis upon which this water right may be described as a municipal use, and the objection should be ignored.

D. 9 – Place of Use:

As this is an irrigation right, it must describe the place of use as contained in the recommendation. Objector City of Pocatello has provided no factual or legal basis upon which the use of wastewater for irrigation can or should be identified as “municipal water” and used where municipal water may otherwise be used. This water right is based upon a license describing the nature of use as “irrigation.”
