REASONS SUPPORTING RESPONSES

D. 2, 3, 4 and 7 - Source, Quantity, Priority Date and Purpose of Use:

In its Amended Objection, the City of Pocatello objects to the recommendation in regard to these elements on the basis that it did not include a remark that the water under this right can be stored in various reservoir and tank storage facilities, including water from all other sources available to the City of Pocatello. Respondents are unaware of any basis for the inclusion of such a remark regarding the City of Pocatello's water distribution facilities, and opposes this proposed change for the further reason that this right is for irrigation purposes, and should not be commingled with the municipal water of the City of Pocatello.

Objector further states that this water right should have been recommended with a general provision that this water right should not be considered junior to water rights from the Portneuf River and should be administered separately from all other water rights in Basin 29, and that said water right should be decreed with the general provision that all of the City's sources of water in Basin 29 should be administered separately from all other water rights in Basin 29. Objector further objects that the recommendation of this right did not include a general provision addressing the Swan Falls rights of Idaho Power Company as set forth in Consolidated Subcase No. 37-02499. Respondents oppose objector's definition of the source of the point of diversion under this right, including the allegation that the right is legally and physically available from ground water sources in Basin 29, and that Swan Falls issues should be addressed in a general provision for the reason that this issue will be addressed in Consolidate Subcase No. 92-37 in the SRBA.

Objector, City of Pocatello, has failed to state any reason for changing the purpose of use as no factual or legal basis upon the purpose of use of this water right can or should be changed.

D.7 – Purpose of Use:

The fact that the City of Pocatello is a municipality does not alter the nature of the water right held by the City for irrigation. There is no basis upon which the purpose of use should be changed.

D. 9 – Place of Use:

The Objection of the City of Pocatello objects to the recommendation of this right for the reason that it does not include a description of the place of use that includes: "including all lands necessary to complete the beneficial use of this municipal water right." Respondent is unaware of any basis for changing the place of use under this surface water right to the vague and undescribed place of use or for including such a remark, and objects to such change. Reference by the objector to this right as a "municipal water right" are misplaced and are not relevant to this right, and have no relationship to public health and safety standards.
