Re: Water right no. 29-7822.

Dear Mr. Giesbrecht,

I received your notice-of-error replies for various water rights for American Falls, one of which is referenced above. Your comments indicated that you felt that the quantity should be 3.21 cfs rather than 0.81 cfs.

I have reviewed the file and comment the following:

1. Water right 29-7822 is a water right involved in transfer No. 68831. This transfer involved five total water rights and resulted in a cumulative total of 13.03 cfs. The transfer was signed May 18, 2001. The resulting amount for this water right AFTER the transfer was for 0.81 cfs.
2. A permit was issued for water right 29-8171 for 3.21 cfs. This water right permit was obtained after 1987 so it is not part of the Snake River Basin Adjudication. It is currently in Boise undergoing review for licensure. As a courtesy, copy of this water right permit is included.
3. Given this information, I will not be making any revisions to this water right recommendation.

If you require any assistance or have any further questions in this regard, please feel free to call me at 525-7161.

Sincerely,

W. Roger Warner
Adjudication Agent

Enclosure: Copy of Water Right Permit No 29-8171
