King Creek Grazing Association
BLM Claim A29-7827
December 6, 2001
Narrative by Cindy Bird

Photo 1. File name 232_OrmanPOD

On October 23, 2001 Steve Hebdon, President of King Creek Grazing Association, and I visited Orman Springs stock watering site. Both BLM and King Creek Grazing Association use Orman Springs. BLM has filed an adjudication claim on Orman Springs from their water right license 29-7827.

Photo 1 was taken at 2:55 pm looking south at the head of Orman Springs. The springs are located on BLM property in the NESW of section 15. The springs were GPS'd but no site tag was applied. The POD matches the licensed POD.

Photo 2. File Name: 233_OrmanPOU

Photo 2 was taken looking northeasterly at 2:57 pm. The 2 troughs pictured in photo 2 are located on King Creek's property, which is also located in the SENW of section 15. Photo file names refer to the Canon assigned picture number, the source name and description.

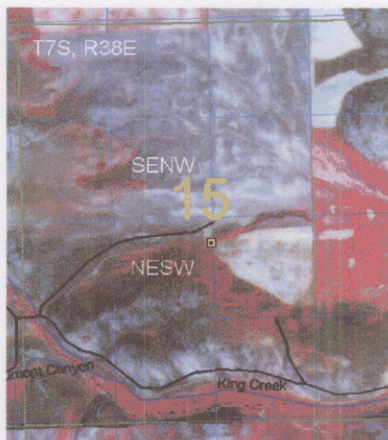

Figure 1. POD

Figure 1 shows the GPS'd point of diversion (POD). The POD and place of use (POU) are both located in township 7 south, range 38 east section 15 near where BLM, King Creek Grazing Association and Delmo Smith's land comes together.
