

Memorandum

To: Carter Fritchle, IDWR
From: Don Kerby, Cherrylane Ranches, Inc
Date: May 10, 2006
RE: Sub case 85-15644

Carter,

Enclosed is the notarized affidavit from Ken Steigers, a long time neighbor that lives across the river in eyeshot of our irrigated land. I have also enclosed a note from the files at Clearwater Power Company. I think this is just a file verification note from March of 1975.

Hopefully this is sufficient documentation for this water right. If you have questions about this or need anything else, please let me know. Otherwise I will wait for more information from the court or your office.

Don A. Kerby

Affidavit for Subcase 85-15644 (Cherrylane Ranches, Inc.)

April 26, 2006

I was born (1933), raised and have lived all of my life in the Cherrylane area.

The Kerby Dairy Ranch did major upgrades to their irrigation system on the Cherrylane Flats in about 1963. This is firm in my memory as it was about the same time as my marriage, which was in 1963.

In 1964 and 1965 I helped in the construction of the new house at the lower end of the Cherrylane Flat. The newer irrigation system was definitely operating during irrigation season in 1964 and 1965.

Kerbys have used this system continuously since that time. There have been various water distribution systems used; hand-lines, wheel-lines, big gun sprinklers and center pivots, but I am not aware of any main pump upgrades to that system since it was installed in about 1963.
