E. Reasons Supporting Objections(s):

We understand that the Department did not reconnect 37-2321 for the reasons that it was considered to be a duplicate of water right 37-1213. However, this water right has been delivered along with water right 37-1213, as well as with rights 37-511, 37-512, 37-513, and 37-1067A, and put to beneficial use, since 1915, a period in excess of 90 years. The ownership of the land to which the water is appurtenant has changed from time to time over the years, and this water right has been transferred along with the land.

The watermaster has consistently administered the right according to its 1915-11-08 priority date. We understand the basis for the claim should be changed from "license" to "beneficial use."
