

Notes

4/18/05 Danya, S.O. Water measurement district sent me a copy of the water masters report that Warrants were delivered Sand Creek, 300" in 1961. I don't have any other documents to support ~~and~~ anything earlier than 1961 priority. CB.
S.O.U. (Administrative) 4/1 - 10/31

Irrigated acres 93.9 acre

Pon shape 27-11946 pon.shp.

Pod 27-10994 pod.shp. Select only
Pod in SWNE NE Sec 17.

Irrigated acres were reduced because claimant only has one pod in the SWNE NE. Therefore, the water couldn't get to the whole claimed Pon.

Recommended Pon relates to pod location.
