Re: Snake River Basin Adjudication (SRBA)  
Notice of Claim 27-11336

Subject: AMENDED CLAIM

RESPONSE DATE: MARCH 12, 2004

Dear Claimant(s):

Thank you for responding promptly to my request for information. After reviewing the document I'm recommending that you amend the claim and change the purpose of use from "Water Quality Improvement Storage" to domestic. The claimed diversion rate of 0.04 cfs is not based on continuous flow. Since the flow is continuous the diversion rate is reduced to 0.02 cfs for the home. For your convenience I have enclosed the amended claim for your review and signature. **Your signature must be notarized.** You can either have your signature notarized and return the Notice of Claim to this office or make an appointment with me to notarize your signature.

Please response by the above referenced response date so your claim can be completed and ready for our recommendation to the SRBA court.

If you have any questions please feel free to contact me at 547-3993 in Soda Springs.

Respectfully,

Cindy E. Bird  
Adjudication Bureau

Ref: Snake River Basin Adjudication ( SRBA)

Subject: Purpose of Use Clarification

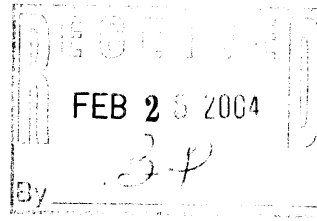

Response date: March 1,2004

Dear Cindy,

In your letter of January 28, 2004 you asked me to explain our water system . Since buying this place these are the only things we have done to the spring. We put in a better holding tank and new plastic pipe from the spring to the cabin. This spring doesn't supply much more water than what a normal house would use. In fact the last few years it has stopped running later in the fall. I hope this gives you the information you need.

Respectfully,

Grant H. Lloyd

Notice of Claim 27-11336

Subject: Purpose of Use clarification.

**Response date: March 1, 2004**

Dear Claimant(s):

IDWR's initial investigation of the Notice of claim listed above indicates that the purpose of use is listed as "Water Quality Improvement Storage". Please explain your system. In reviewing the claim it appears that the purpose of use should be "Domestic", with a clarification remark of Water Quality Improvement Storage. Also, since the source is a spring that normally is a continuous flow, the diversion rate should be reduced to 0.02 cubic feet per second (cfs). By defining your system it will help me determine the proper purpose of use and diversion rate needed to recommend this right to the SRBA court.

Depending on your response to the above questions your claim may need to be amended. While the claim is still in the SRBA review process there will be no charge for the amendment. It will require you to sign the Amended Notice of Claim in front of a Notary. This can be done at my office in Soda.

This office must receive your response by the response date shown above. If no response is received your claim will not be recommended to be decreed in the SRBA. If you have any additional questions please feel free to contact me at the Soda Springs Satellite office at 547-3993.

Respectfully,

Cindy E. Bird  
Adjudication Bureau

Enclosure: Copy of the Notice of Claim 27-1336

INTER-DEPARTMENT MEMO

TO: Barbara / Pauline

SUBJECT: address / ownership

FROM: Cindy

DATE: 1/26/04

Please verify the address and get a tax lot  
number from Carbon County assessors. Verify  
that there is a home.

Then give the file back to me.

1/27/04 Per Preston Phelps Carbon Co. assessor:

# RL11490; 3 room cabin, water is gravity feed to  
the front door where they pump it into a bucket  
and take into the house PE/CB

( ) For your information
