☒ This water right was not recommended, but Should be recommended with
the elements described above.

E. **REASONS SUPPORTING OBJECTIONS(S):** The original place of use was flooded
when Henrys lake was enlarged by construction of the Dam. It was transferred to
the lands within the North Fork Reservoir Company but it is more convenient to

include it as a storage right rather than to make some arbitrary distribution of it as a natural flow right among the canals of North Fork Reservoir Company. This water right should be recognized as an accomplished transfer of natural flow to the canal companies within the North Fork Reservoir Company or as an accomplished transfer to the North Fork Reservoir Company.
