RE: Change to Preliminary Director's Report 27-10358

Dear Jason and Megan:

The purpose of this letter is to notify you the Preliminary Director's Report you previously received for the above referenced claim has been changed. A printout of the new Preliminary Director's Report and a map is included for your records.

The Notices of Error and new claims received by this office subsequent to the May 2005 mailing of Preliminary Director's Reports in Basin 27, Blackfoot River Drainage, caused us to re-examine the recommendations involving decreed water right 27-27. Your claim to portion of this water right was one of those we re-examined. The enclosed report is based on information obtained subsequent to the initial mailing and replaces the previous Preliminary Director's Reports. I urge you to take a few minutes and review the elements of your water right as reflected on this revised Preliminary Director's Report.

The Department expects to submit to the Snake River Basin Adjudication Court all recommendations for the Blackfoot Drainage, Basin 27, in November 2005. At that time you will receive a Director's Report for your water right, which should mirror this revised preliminary recommendation. The Director's Report mailing will not include a map.

Naturally if you have questions please call me at the above phone number.

Respectfully Submitted,

Ernest Carlsen  
Water Right Supervisor
