RE: Beneficial use

DATE: 10/22/01

NAME OF PARTY: Avadna Hansen

In July of 1946 Mike & Avadna Shipley purchased 160 acres in Township 7 South, Range 38 East. In 1951 they hired Ivan Borte to drill an irrigation well. The well is located NESE of Section 25, Township 7S, R38E. When the well was dug they irrigated the land they purchased and another 40 acres in the SESE of section 25. This land wasn't included in the licensing exam because it was still owned by Simon Amer. Simon lived in Boise. The Shipleys paid for the additional acreage in the late 70's or early 80's and continued to irrigate it with the well.

~~Avadna later bought the property out and had~~
Avadna sold the property in the mid-80's and ended up foreclosing on the property in the late 80's. This explains the ground not looking like it was irrigated in our 1987 imagery. The land is still being irrigated by the purchasers. The land is again being sold on contract to Sam Reed. The final payment is due 12/01/02.

Lloyd Wilson defaulted on the loan, the pump was damaged and had to be repaired after the foreclosure.

Photo 1 was taken September 26th, 2001 at 6:37 pm.

Avadna Hansen-Shipley accompanied me on the field exam. This photo was taken while looking south from the well at the irrigated acres in the SESE of section 25, township 7 south, range 38 east.

Photo 2. Point of diversion-looking southeasterly.

Photo 2 was taken looking southeasterly. The well is the same point of diversion for the license 29-2299 and this beneficial use claim.

Avadna Hansen-Shipley owned this property until December 27, 2001. The property had been sold to other parties prior to it being sold on contract to Sam Reed and the corporation made the final payment in December of 2001.
