Claims A27-1B, -2B, -3E, -4Z, -5B + A27-11931

1/ Claims share a common P.O.D, which is a 200hp pump in the Blackfoot River. This exam was done on 9-04-2003 with claimant, Paul Reid.

2/ GPS data - 0655995 file # -2B-
0241728

Tag # A0012464

3/ The 0.80 cfs under A27-11931 was a straight purchase of a water right done in 1990. This is a post 1987 change of P.O.U. + must have an approved Transfer.

The implied conflict of ownership by Adrian Young does not seem to have materialized. There is no claim filed on this right by Mr Young, that I could find. Mr. Young did file on a portion of right 27-23B (see claim A27-10545)

4/ Claims A27-1B, -2B, -3E, -4Z + -5B appear to be pro-rations of the end result of Transf.

#1561. Claim A27-11931 does appear to be a portion of 27-4 but will have to be recommended to the Hale place + then have a transfer filed to move it to the Reid Farm
