Dear Matt

Per our conversation about adding 120 acres to Twin Lakes Irrigation Map
Enclosed are Pacham and Lee statements on prior irrigation.

Victor Smith

A handwritten signature in black ink, appearing to read "Victor Smith", written over a horizontal line.

To Whom It May Concern:

I was a farmer back in the 1949 - 1952 and we got water above the canal Twin Lakes Reservoir it was difficult but we did it.
120 acres One mile west of HWY 46 and South Frostenson Road just north of the canal.

Gordon Lee

To Whom It May Concern:

As a former family owner and farmer in the past we have irrigated on the north side of the Twin Lakes Reservoir Section 30.T.1SO.R15E south of the Frostenson Road in late 60's early 70's

The benefit to use this in more recent times would be power irrigation we had ditch irrigation in those times and it was hard running water up hill.
