Re: Joint Application for Permit #65-20051
City of Fruitland - Payette River

Gentlemen:

We represent the estate of Keith Lavern Remington, owner of the Shady River Retirement Community Park. The Park borders the project which is the subject of above identified Application for Permit. In response to your May 22, 2006 letter, the Park owner does not object to the project, however, there is some concern about possible noise emission from the pumping plant and whether this will disturb the residents of the Park. Please confirm that applicants will do all necessary to eliminate noise from the operation of the pumping station.

Please feel free to contact me directly if there are any questions about this response.

Very truly yours,

Carol DeHaven Skerjanec

cc: Cynthia Remington, P.R.
