

9-26-05

Original right 22-2303 (not 22-2302) is owned by
BYU-Idaho and claimant. original license allowed 10 cfs/613 ac =
.016313 cfs/ac.

Original POM 613 ac.

- 319 ac owned by BLM and other private owners not claiming water from the right 22-2303; property not irrigated. 5.2 cfs belongs to this property.

22-2303B, C - 254 ac. owned by LDS Church/BYU-Idaho/Ricks College (original quantity) 4.14 cfs belongs to them of original quantity.

Rights 22-2303B and 22-2303C are located within this 254 ac, but only claiming a total of 155 ac of it. An accomplished change of place of use occurred in which the quantity of water allowed for the 254 ac 4.14 cfs was concentrated on 155 ac for the two rights allowing .02 cfs/acre to be recommended for 22-2303B and 22-2303C.

22-2303B: recommend 116 ac 2.32 cfs

22-2303C: recommend 39 ac .72 cfs

22-10044

- 40 ac owned by Joseph Jensen

Cannot recommend .8 cfs because original license does not allow 0.02 cfs/acre and there is no evidence that claimant withheld 0.02 cfs/acre when he sold 22-2303 to Ricks College. Therefore, can only recommend .016313 cfs/acre according to license.
recommend 40 ac 0.65 cfs

Discussion of right origin and split history. Questions and problems.

This is a split in A22-2303. See legend
in A22-2303B. Name / address are correct.
Bae 9/3/04

Above note was an error - I mis-read the
claim. On further inspection it looks like
the claim incorrectly identifies the license as
22-2302. POB, POA and priority on claim are
consistent w/ 22-2303. The full license is still
under claimed even if BYUI amends its claim
See split notes in A22-2303B.

Overall Diversion Volume _____

Document how the Period of Use and/or Diversion Rate were verified:

License is A22-2303B has no season of use. License diversion rate ≤ 0.02 cfs/acre but it appears an accomplished change has concentrated diversion rate per acre. Three claims from this license still do not claim out of original pool or cfs. Claimant amended claim to $0.02/\text{ac}$.
