

5-5-06

- I called Illa Neeley and asked her about the lease of Neeley land by the Ricks. I asked her if she had any interest in the water once the lease is dissolved. She said it is their water, there has never been water rights apurtinant to that land and they have been using their own water to irrigate it. She said she has stated in the sales agreement of the land that no water rights go with the land.
