

May 15, 2006

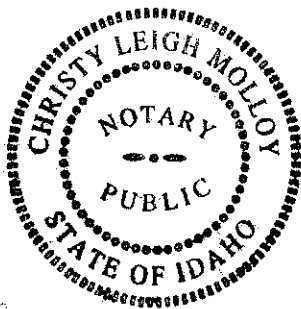

To whom it may concern:

My family and I moved into the home where Mr. Roberts, Jr. now lives in 1955. For the four years we lived there we incorporated the waste water from the neighboring farms into our irrigating system. The waste water from the place where we now live is used by two of our neighbors to the south.. This is common practice in this area.

Sincerely,

Vernon L. Kramer
