RE: EVIDENCE OF PRIORITY FOR SRBA CLAIM NUMBER 21-12854

Dear Claimant (s):

The Notice(s) of Claim to a water right identified in the attached proof report(s) has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based upon "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting your claimed priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

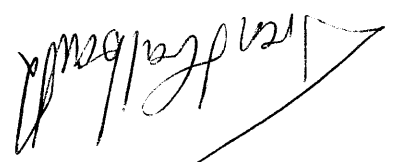

For your reference, enclosed is a printout of your Notice of Claim to Water Right and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents may fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other elements of the Notice of Claim have been or are currently being conducted by Department personnel.

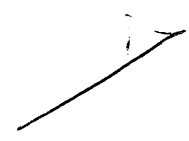

.....
The Department will not recommend the Notice of Claim be decreed by the court if
evidence of a priority date is not submitted. The Notice of Claim will be disallowed.
.....

Please submit the documentation supporting the priority date within 30 days of the date
of this letter, referencing all documents with the corresponding Claim number. If
you have any questions not covered by this letter or the enclosed pamphlet, please feel
free to contact this office at 525-7161.

Respectfully submitted,

Trent Galbraith
Water Resource Agent

MARCH 7, 2003

RE: Hagenbarth beneficial use right on an unnamed spring rising in the NWSESW of Section 6, T13N,R41E.

I am representing the claimants in the filing of their water rights in the Snake River Basin Adjudication (SRBA). The claimants are Margaret Hagenbarth Estate, David J. Hagenbarth and James F. Hagenbarth.

The claimants' predecessor, George L. Wall, filed a Notice Of Water Location for flow from a spring on November 10, 1893. Mr. Wall called this spring Moose Spring and identified it as being located in the SE1/4 of Section 6, T13N,R41E. The water was to be used on land located in Section 12, T13N,R40E, portions of which are now owned by the claimants. In analyzing Mr. Wall's Notice of Location, it becomes evident that the spring being filed on is identical to a spring that is actually located in the NWSESW of Section 6, T13N,R41E. The ditch that delivered water to the place of use as described in Wall's filing is still being used. For purposes of the adjudication this spring remains unnamed, but is locally known as Morrain Springs. **Attachment B** is a copy of the Wall Notice and is recorded in Book 1 of Water Locations, page 179, found in the records of Clark County, Dubois, Idaho.

A patent was issued to the claimants predecessor, Galen Pierson, for land that included those lands irrigated by Mr. Wall with water diverted from Morrain Spring. This patent is recorded in the records of Clark County, Dubois, Idaho and can be found in Book 2 of Patents on page 389. In 1908 Mr. Pierson issued a warranty deed to the claimants' predecessor, F. J. Hagenbarth, for property that included those lands irrigated by Mr. Wall in the above pertinent Notice of Water Location. This deed between Pierson and Hagenbarth is included as **Attachment C** and can be found recorded in the Clark County Courthouse in Book 2 of Deeds on page 108. This deed specifically transfers "water rights in any way pertaining thereto whether acquired by use, purchase or permit, both recorded and unrecorded" along with land included in the Wall Notice and now owned by the claimants. **Attachment D** is a chain of title following the pertinent transfer of land and water from F. J. Hagenbarth to the claimants of this water right in the SRBA.

In 1912 the claimants' predecessor, F. J. Hagenbarth, received a License and Certificate of Water Right for flows of Dry Creek and Sheridan Creek to irrigate lands owned in 13N, R40&41E. (#8990 or 21-2054). **Attachment E** is a copy of this license and the location of the spring and pond claimed by Wall in his filing is pinpointed on sheets 1 and 2 (NWSESW of Section 6, T13N,R41E). The 160 inches of water claimed by Wall from Morrain Springs commingled with a portion of the Sheridan Creek water claimed in #8890 and Walls original place of use is included in the license land list. The ditches used by Wall and Pierson to carry Morrain Springs water to the claimed place of use are clearly

RECEIVED
APR 03 2003
IDWR/North

identified on both sheets 1 and 2. The increased storage capacity of Sheridan Reservoir identified on sheet 2 illustrates how the reservoir inundated a portion of the original Wall land in the E1/2 of the SW of Section 12, 13N,R40E. The Wall water right dedicated to land flooded by the reservoir continued to be used on other land in Section 12. **Attachment F** is a Warranty Deed transferring to the claimants' predecessor, D. V. Hagenbarth, land in Section 12, T13N,R40E that the claimants now irrigate with this 1893 water. Specifically included in this deed is the W1/2NESW which is a 20 acre parcel that was originally included in the Wall Notice of Location. The .4 cfs being claimed in this filing is directly related to this 20 acre parcel. This .4cfs has been continuously used by the claimants and their predecessors since 1893. **Attachment F** is recorded in Clark County, Dubois, Idaho in Book 12 of Deeds at page 319.

In 1943 D. V. Hagenbarth, the claimants' predecessor, began developing a sub-flood irrigation system for the land under his ownership in Township 13North, Range 40E. This system collected water from Dry Creek and Morrain Springs and included every spring and small creek between the above sources. These sources have been claimed in the SRBA. The .4 cfs has been co-mingled with other SRBA claimed water rights diverted from Morrain Springs and used by the claimants today. The claimed place of use for this claim will be limited to lands being irrigated in Section 12, T13N,R40 E and in Section 7, T13N,R40E. **Attachment G** is a USGS map which identifies the source, point of diversion, conveyance facilities and place of use for the above claimed water right.

Sincerely,

James F. Hagenbarth

Water Location

of

Geo. L. Wall.

Notice is hereby given to all whom it may concern that I, Geo. L. Wall, a citizen of the U.S. over the age of 21 years, do hereby claim and appropriate one hundred and sixty (160) inches of the flow of the waters of Moose Spring measured under a four inch pressure. Said water is diverted at a point where this notice is posted said point being about 5 rods S of the source of said Spring at the place where a small pond is formed by said Spring, and being on the SE quarter of Section 6 T. 13 N. R. 41 E. B.M. and in Sheridan Valley Fremont County, Idaho.

The water hereby claimed and appropriated to be used for agricultural and domestic purposes upon the following described land and premises which will be when surveyed.

40 The E. $\frac{1}{2}$ of the SW quarter)
 80 " W $\frac{1}{2}$ " " SE) of Section 12 T. 13 N. R. 40 E. Boise Mer.

160 acres. Said land being part of the land known as the Richard Bianchi Desert Entry and adjoining Mary C. Rainvilles Desert Entry on the west

Said waters so claimed and appropriated are taken and diverted from said Moose Springs by means of a dam, built in and across said Spring at the aforesaid point of diversion, said dam being built of logs and earth and being 76 feet long, 12 feet wide and $7\frac{1}{2}$ feet high, and another part of said dam, being built of earth and being 52 feet long, 9 feet wide, and an average of one foot in height, and another part of said dam being also built of earth and being 130 feet long, 12 feet wide and 2.4 feet high, and the aforesaid water, so claimed and appropriated is taken from said spring at the said dam situated at said diversion and conducted to and upon said heretofore described lands by means of a ditch said ditch being 7023 ft. long, six feet wide at the bottom and from one foot to 2.3 feet deep and with a grade (fall) of from one half of one tenth of one foot to the 100 feet.

Geo. L. Wall.

Filed for Record at the request of R. W. Beane at 5 minutes past 2 o'clock P.M. this 9th day of January 1894.

R. S. Bramwell, Recorder.

LICENSE AND CERTIFICATE OF WATER RIGHT

Water License No. 8990

Water District No. 26-A

THIS IS TO CERTIFY That J. J. Harrington

of Spencer, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated September 24 19 12; that Permit No. 6990

was issued under said application; that Certificate of Completion of work, with a carrying capacity of 80.0 second feet, was issued thereunder on August 27, 1916, showing that said works

day of September 1920, in 1916 and that on the 9th day of January

R. J. Hagendarth, State of Idaho, made proof to the satisfaction of the

domestic use, under Use Permit No. 8990 of the State Engineer, and that said right to the use of said water has been perfected in accordance with the terms of said permit.

The right hereby confirmed dates from September 24, 1912; Volume 6 of Licenses, at page 3229, on the 2nd day of January, 1925; Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in

The Tontoon Division located Dry Creek feeder canal bears 9.39° E. 2270' from the corner of Secs. 9-16, T. 13 N., R. 40 W., S. 34 N., Sheridan Creek in the 1/4 Sec. 9-16, T. 13 N., R. 40 W., S. 34 N., Sheridan Creek. The amount of water to which such right is entitled and hereby confirmed, for the purposes of the project, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 76.2 cubic feet per second.
