Case No. 39576

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The Claimant/Objector and IDWR and the United States Bureau of Indian Affairs agree and stipulate to the elements as changed in the attached document as indicated in underline/strikeout format.

The Claimant and IDWR acknowledge that there still remain outstanding objections by the Shoshone-Bannock Tribes and that the objection by the United States Bureau of Indian Affairs to the lack of annual volume of diversion are still outstanding. In addition, any responses by the State of Idaho and other parties still remain.

The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.
