Re: Water Right Nos. 77-02035

Dear Sir or Madam:

I represent Eiguren Ranch, Inc. The above water right is presently listed in Tom M. Eiguren, Terry J. Eiguren and John D. Eiguren. Yesterday I filed a Notice of Transfer of the Water Right which is based upon a Deed executed and delivered to the corporation in 1991.

In looking at the Director's report on this water right, I believe there is an error in failing to list all of the land irrigated and the quantity of water to be decreed.

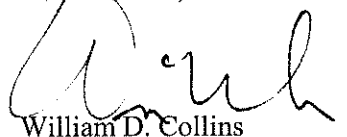

The report shows that there is eight acres of land being irrigated in the SW $\frac{1}{4}$ NW $\frac{1}{4}$. I believe it should also show eight acres as being irrigated in the NW $\frac{1}{4}$ SW $\frac{1}{4}$.

This water right was based upon a license which confirmed irrigation of the two eight acre parcels. There is a companion water right, No. 77-02205 with a priority date of 1966. That water right showed ten acres as being irrigated in the NW $\frac{1}{4}$ SW $\frac{1}{4}$. Therefore, on your field check, you did find that at least eight acres of land were being irrigated in the NW $\frac{1}{4}$ SW $\frac{1}{4}$. It appears to me that it was simply an inadvertence to fail to also show the eight acres being irrigated in the NW $\frac{1}{4}$ SW $\frac{1}{4}$. The total quantity should be 0.36 cfs.

Would you please review the file and give me a call back to discuss this matter.

Very truly yours,

WESTBERG, McCABE & COLLINS, CTD.

William D. Collins
