I. FINDINGS OF FACT

A notice of claim was filed for water right 85-11103 pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of this water right.

On May 6, 2006, the claimant of the water right, Dallas R. Howard, by and through his attorney of record James W. Givens, filed an objection to the *Director's Report*. Through the course of the proceedings, the claimant and IDWR determined that water right claim 85-11103 should be split into eighteen (18) separate claims. On June 30, 2006, IDWR filed an *Amended Director's Report* for water right 85-11103, and *Director's Reports* in the seventeen (17) claims split therefrom. The *Director's Reports* were listed on the Court's monthly docket sheet, and an objection deadline was set. No objections have been filed to the *Director's Reports*, and the time for filing of objections has expired.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein, IT IS RECOMMENDED that the above-captioned water right claims be **decreed** with the elements as set forth in the attached *Recommendations for Partial Decrees Pursuant to I.R.C.P. 54(b)*.
