STANDARD FORM 5

**STIPULATED ELEMENTS OF A
WATER RIGHT**

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

Water diverted under this right is exchanged by injecting water diverted under this right into the Teton River at the points of injection described above, and diverting an equal amount from Teton River at the points of rediversion described above.

PURPOSE AND
PERIOD OF USE:

PURPOSE OF USE	PERIOD OF USE	QUANTITY
IRRIGATION	04/15 10/15	6.000 CFS 2,189.80 AFY

The use of water for irrigation under this right may begin as early as April 1 and continue to as late as October 31, provided other elements of the right are not exceeded. The use of water before April 15 and after October 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

PLACE OF USE:

13062 ACRES TOTAL

The Place of Use does not include Federal Public Land.

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

This right is limited to the irrigation of 736.0 acres within the place of use described above in a single irrigation season.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

The rate of rediversion from the Teton River shall not exceed the rate of injection into the Teton River from the exchange well.

This right is subject to regulation by the watermaster of Water District 01.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

No demand on upstream prior rights or existing prior exchanges can be made and no interference with prior rights located between the rediversion pumps and the exchange well will be allowed even if the exchange well is pumping water into the Teton River.

The exchange well must inject water into the Teton River under this license, and the injection must continue after the diversion from the Teton River ceases until the water not diverted reaches the point of injection.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.

Right includes accomplished change in point of diversion pursuant to Section 42-1425, Idaho Code.
