RE: Change of Ownership

OK to change, but it looks a little weird.

What happened apparently is that the Freeman's sent in a change of ownership with a deed but we couldn't find it. The tax lot data verify's that the Freeman's owned the property under 67-4052A so we added the Freeman's as "Present Owners" and left the Petersons on the claim.

So the Freemans send in another copy of that land description which after reviewing the file I see we already have.

So that is why it looks odd.

We can drop the Petersons, change Freeman's to Current owners, and notify them of the change... please.

No Rush.
