CHALLIS ID 83226
Telephone Number: (208)879-6364

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

- ① Purpose of Use → irrigation.
② Priority Date → 4/01/1875

- ④ Quantity → 0.160 CFS.
③ Quantity → 0.160 CFS
③ Point of Diversion → T15N R21E S7

2. Describe the changes you wish to make in the proposed recommendation:

- ① Purpose of Use → irrigation/stockwater
② Priority Date → 4/01/1874

- ③ Point of Diversion → T15N R21E S7 SWNE
w/in Custer County.

- ④ Quantity → Irrigation 0.34 CFS.
+ Stockwater 0.01 CFS.
= Total Diversion 0.35 CFS

NENE
w/in
Custer County

3. Give a brief explanation as to why you disagree with these portions:

- ① Purpose of Use → Cattle graze off the 3rd cut of Alfalfa (Approx. 3 to 4 weeks sometimes longer) also based on prior water right/claim.
② Priority Date → One year change, based on prior water right/claim. You might have new info. I don't.

I AGREE with this proposed recommendation: no changes need to be made.

- ③ Point of Diversion → (SW) NENE changed to new recommendation of NENE based on prior water right/claim. You might have new more accurate info. on the location of Point of Diversion.

- ④ The IDWR Web site shows I had: Irrigation 0.34 CFS
Stockwater 0.01 CFS

0.034 → doesn't add up!

should be 0.35

Recommendation is 0.16 CFS compared to 0.35 CFS (previous)
That is over half the previous allowed diversion for 8.0 acres of irrigation in an extremely arid climate.

I will be out of town until 9/21/06 and will not be able to meet w/you at the May Grange Hall.
