601 - Acres Total

Hello Randy,

The Ownership Change has been completed on all of the rights **except for 45-80B and 45-81B**. Ennis Matthews filed these and the ownership change was for Matthews Brothers claims, so a little more information for these two is needed. The place of use is 11 acres SWNW of Section 2, T14S, R22E. (Perhaps there is a deed that will convey this...) The recommended acres do not always agree with the claimed acres because I used the 1987 aerial photo to outline irrigated acres as of 1987 through GIS. Also there were times when claimed acres were owned by someone else so I did not recommend these acres to Manning.

Here are my reasons for the recommendations on each right:

45-41 - claimed acres in the NENE and SENE of Section 26 owned by Hilton Critchfield

45-85 - limited to 232 acres because those are the recommended acres from the original decreed place of use

45-90 - this decree was only for 80 acres (NESE & SESE of Section 34, T13S, R22E)

45-622A - claimed on 1280 acres, yet only 960 acres owned (rest owned by Hilton Critchfield in Sections 22 & 27), recommended only irrigated acres (937) in 1987 of owned acres, diversion rate calculated as 10.85 cfs divided by 1280 acres X 937 rec. acres = 7.94 cfs

45-622B - claimed on 607 acres but only the 32 acres in the NWNE of Section 14 owned by Manning, diversion rate is proportionate share- 5.15 cfs divided by 607 acres X 32 ac = 0.271 cfs

45-674 - **claimed 7/1/1882**, not 6/1/1882 (decree is for 7/1/1882 as claimed) **claimed** place of use in Section 34, as recommended and decreed, if in Section 14 now, needs **Transfer**

45-2529 - claim was filed for 4.46 cfs but only 198 acres (remarks stated that it was a combination of water rights parts A & B) Part A was for 198 acres and 3.88 cfs, part B was for 0.58 cfs and 99 acres. Looks like the total diversion rate was claimed but the other 99 acres were left off the place of use. We can probably amend this. (The 99 acres were transferred to Section 3 in 1986.) Will then be limited to 297 acres.

45-4192 - was disallowed because the two wells claimed here (and in 45-4195) were the same two wells already licensed under 45-2529. The licensing field exam was done in 1969. Actually, the well in the SENE was examined and licensed and the other well in the NENE was added during a transfer in 1986, but only adding another point of diversion, with no additional rate. As you know, this area was closed to further development in January of 1962, so these wells are already fully licensed under 45-2529. I disallowed this one and recommended the expanded use under 45-4195 because it was for more acres, but **either** could be the **expansion**.

45-4195 - again, the same two wells already licensed so I recommended this as an expansion claim per 42-1416B of license 45-2529, which gets a priority date of 6/30/1985, and no additional diversion rate or volume, but does recognize the extra 444 acres not covered by the license.

45-12456 - This right is a combination of several old decrees and in the remarks stated that an additional **0.278 cfs was from an unknown decree**. I need more information as to **which decree** in order to recommend the final 0.278 cfs. There are some possible unclaimed portions of 45-78E, 45-81E, and 45-87C available. Perhaps we can work together to figure this out.

45-13489 - acres were reduced, some owned by Hilton Critchfield

45-13496 - acres reduced, some owned by Critchfield. I actually **increased the recommended diversion rate on this one!** I found a mistake in an old transfer (#2268) that assigned 2.8 inches to right 45-79F (which is a part of this combined right) and it should have been 6.67 inches.

45-13497 - claimed 565 acres, irrigated acres were 509. This is a combination of 45-89D for 157 acres and 45-89C for 80 acres, therefore limited to a total of 237 acres.

I understand a transfer is needed to show how the rights are now used and if we can agree on the recommendations, the transfer process can begin. Looking forward to hearing from you. Jeanie Robertson
