*Proposed
Transfer of water
Check Jones!*

Dear Mrs. Seeley:

I received two partially completed applications for transfer on your behalf from attorney Ray Rigby's office. These are the same rights and concepts we discussed. At that time I mentioned that I did not know how the transfers could be approved given the way the adjudication claims were filed. This is still the case.

I discussed the matter of your original claims that are now on file with the Snake River Water Master and the Adjudication supervisor for this office. We all have questions on the existing claims even before a transfer is proposed.

The original water rights 21-00052, 21-00032, 21-00054 and 21-00029 covered, in part, the E ½ NW ¼ and E ½ SW ¼ Section 13 and the NENW Section 24, T8N, R41E. These parcels belong to other parties according to the assessor's office.

Some of the questions that need to be answered are:

1. How did you get all of the rights on your property?
2. Rights 21-00052, 21-00032, 21-00054 and 21-00029 add up to more than 11 cfs. Your claim shows only 227 acres. How can you justify this excessive cfs/acre?
3. Should any transfer proposal move water from the Curr Ditch to the McBee Ditch (and visa-versa) that changes the priority of the water delivered, then each ditch will have to approve such a change. Have the ditch groups agreed to this?

Sincerely,

Harold W. Jones

Water Right Supervisor
