Dear Roxanne:

We have had an opportunity to review the Preliminary Recommendations for Bob Dreyer's water rights with him. He indicates that there is a good deal more land irrigated than the amount recommended. He says that much of land where the trees are located has a great deal of grass and that the grass must be and has been irrigated for the use of the cattle. He actually went through each of the maps and marked them up and prepared responses to the Notice of Error Reply forms. I am enclosing copies of everything he sent to me for your review and further action. Thank you for your continued attention to this matter.

Yours very truly,

Kent W. Foster
