REPLY

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

DEPARTMENT OF
WATER RESOURCES

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: September 29, 2006

Water right number: 73-4080

ROBERT W CHEWNING
139 PAHSIMEROI RD
ELLIS ID 83235

Telephone Number: (208)876-4291

VIRGINIA H CHEWNING
139 PAHSIMEROI RD
ELLIS ID 83235

Telephone Number: (208)876-4291

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):
a. We do not agree with the priority date of 04/01/1933.
b. We do not agree with the total acres being irrigated, 48.2 acres
c. We do not agree with the quantity of water being 2,02 CFS.

2. Describe the changes you wish to make in the proposed recommendation:
a. The priority date should be 1886 or earlier.
b. The acres being irrigated under this claim are 58 plus acres.
c. We want a Hubble Analysis for this area. There should be a minimum of 200 miner inches per acre or 2,34 CFS total.
3. Give a brief explanation as to why you disagree with these portions:

See attached statement

____ I AGREE with this proposed recommendation: no changes need to be made.

DATE: 09/26/2006

SIGNATURE:

Robert W. Chewning

Please print your name:

STATEMENT FOR NOTICE OF ERROR REPLY ON
WATER RIGHT 73-4080

3. a. Priority Date:

(1) We know that in 1886 Boise Ellis, William H. Weller and James M. Shoup filed a claim in the Lemhi Courthouse for 500 inches of water being conveyed by a ditch to their respective ranches for agriculture and other purposes. (See Attachment 1, copy of page 289 from the Water Rights Book A found in the Lemhi Courthouse.) The confusing part was that the claim said that the water was being taken from "Trout Creek", which cannot be identified by name today. However, when William H. Weller sold 40 acres by warranty deed in 1901 he conveyed his 1/3 interest to this water right claim and irrigation ditch. In the deed, he goes on to explain that the reason he is conveying the water right as heretofore belonging to and used upon said Desert Land Claim to said party of the second part said water right consisting of a right to the use of the undivided 1/3 of 500 inches of the waters of Pahsimeroi for the purpose of irrigating said tract of land. (See Attachment 2, copy of a warranty deed, page 463 in Deed Record Book L located in the Lemhi Courthouse.) This establishes that the waters of Trout Creek are also waters of the Pahsimeroi.

(2) We know that Boise Ellis, William H. Weller and James M. Shoup owned and were irrigating ranches/parcels from the ditch claimed in Attachment 1. In fact, the large majority of the ranch/parcel owned by Mr. Weller was being watered with his 1/3 interest in this water and ditch. Some of the parcels they owned at that time, and specifically that owned by Mr. Weller, are currently being irrigated by the ditch known today as P-6, the ditch involved in the water rights claims of:

Robert W. & Virginia H. Chewning	73-4080
David L. & Betty Jeanne Ellis	73-4089
Preston Dixon	73-11971
	73-11969
Mike A. & Betty J. Noonan	73-4040
Patricia K. McCaffrey	73-4012
	73-11972
Philip Bowles	

(See Attachment 2 referenced above and Attachment 3, copy of the U.S. Patent found on pages 584 & 585 in Deed Record Book J located in the Lemhi Courthouse.)

STATEMENT FOR NOTICE OF ERROR REPLY ON
WATER RIGHT 73-4080

(3) In 1983 we contracted with John S. McKinney, an attorney in Salmon, to file our original claims for water rights which today are identified as Water Right Numbers 73-4080 and 73-4079. In his attempt to substantiate a valid priority date, he visited and talked to a local rancher, Claus Burstedt, who had been in the Pahsimeroi Valley since 1909 and was living next to and irrigating some of his property from the ditch know today as P-6. Mr. Claus Burstedt told Mr. McKinney that our irrigation took place at least before the turn of the century. (See Attachment 4, copy of a letter dated May 20, 1983 from Mr. McKinney to the Chewnings and Attachment 5, an Affidavit signed by Mr. McKinney affirming the visit and what Burstedt had told him at the time.)

(4) Talking to the local ranchers and inspecting the terrain involved, it would be difficult or impossible to establish an irrigation ditch for the use described in Attachment 1 without it being in the exact location of P-6. Given all the facts above, we strongly believe the priority date should be 1886 or earlier rather than 1933. We also inspected a copy of the Affidavit (Attachment 6) made by Mr. Boise H. Ellis - not Boise Ellis, these are two different men - on the 4th of April 1977. In his statement he talks about the old Weller - Shoup - Ellis ditch. It appears that he is talking about the ditch now know as P-6. We note that the land being irrigated by Weller at that time was specifically described in Attachment 2, was in Lemhi, and was from the ditch now know as P-6.

b. Place of use:

There are 64 plus deeded acres purchased by us in three separate parcels all confirmed by survey associated with this claim. 2.75 acres constitute a dry area adjacent to the Pahsimeroi Road and 3 acres are irrigated by the ditch for which water is claimed under Water Right 73-4079. The remaining 58 plus acres are being and have always been irrigated in their entirety by water from the ditch involved in Water Right 73-4080. We have deeds, tax bills, engineering surveys and other proof of this area.

c. Quantity:

In support of the request for a Hubble Analysis, we have attached a copy of a letter from our attorney dated May 9, 1983, addressing his investigation, along with an engineering firm, of our first claim of water rights on two of the three parcels, totaling 55 acres. Note that due to the sandy conditions they believe we require 2 inches per acre. This was also the opinion of the Soil Conservation Service representative in Salmon. (See Attachment 7) In current discussions with local ranchers, including those who have flood irrigated this property, they all agree that it will and has required at least 2 inches per acre to adequately irrigate these parcels.

Anders, Lithographers, Stationers, Portland, Or.

This Indenture, made this 17th day of September, in the year of our Lord one thousand nine hundred and one between William H. Miller of Butte County, Idaho, County of Butte and State of Idaho, his party of the first part, and Benjamin Boyceon of the County of Butte and the State of Idaho

WITNESSETH, that the said party of the first part, for and in consideration of the sum of Five Dollars DOLLARS, which money of the United States of America, to have in hand paid by the said party of the second part, the receipt whereof is hereby acknowledged, ~~in~~ GRANTED, RANGED and SOLD by these presents to GRANT, WARRANT, ~~and~~ CONVEY and CONFIRM unto the said party of the second part, and to his heirs and assigns forever, all

that certain lot, piece or parcel of land situate, lying and being in the Counties of Butte & Lewis and State of Idaho and bounded and described as follows, to-wit: The South East quarter of the North West quarter of Section Six in Township fifteen North of Range twenty one East of Base Meridian, Idaho, containing forty acres. Also an undivided one third (1/3) interest of and to that entire with right and irrigation ditch right as located and appropriated by James M. Shoup Once John and William H. Miller said water right being of record for and among the record of Water Rights in the County of Butte and for a more perfect description of said water right reference is said above as hereby made. The intention of this conveyance being to convey the said former as the said land claim of William H. Miller and the water right as heretofore being to and used upon said water land claim to said party of the second part, who water right consisting of a right to the use of the undivided 1/3 of 500 inches of the water of Butte margin for the purpose of irrigation for said tract of land. There is a small portion of the above described tract of land situate in Butte County, Idaho.

Together with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in any wise appertaining, and the reversions, remainders, and remainder, rents, issues and profits thereof and also all estate, right, title, interest, ~~in and to the said property, possession, claim and demand whatsoever as well in law as in equity of the said part, of the first part of in or to the said premises and every part and parcel thereof with the appurtenances, to have and hold, all and singular, the above mentioned and described premises, together with the said appurtenances, unto the part of the second part, and to his heirs and assigns forever. And the said party of the first part, and her heirs, the said premises in the quiet and peaceable possession of the said party of the second part, her heirs and assigns, against the said party of the first part and will warrant and by these presents forever defend.~~

IN WITNESS WHEREOF, the said party of the first part has hereunto set her hand and seal the day and year first above written.

Signed, sealed and delivered in the presence of
William H. Miller (S.E. 11)
(S.E. 11)
(S.E. 11)

STATE OF IDAHO, } ss. To-wit: Butte County, Idaho, that
County of Butte } On this 17th day of September, in the year 1901, before
me, Geo. C. Rogers, Clerk of the said District Court in and for said County, personally
appeared William H. Miller, ~~and Benjamin Boyceon~~ ^{and Benjamin Boyceon}
known to me to be the person, whose name is subscribed to the within instrument, and acknowledged to me that he executed the same, and on this day of the year 1901, before me, the officer above described, personally appeared
known to me to be the person whose name is subscribed to the within instrument, and upon an examination without the hearing of her husband, I made her acquainted with the contents of the instrument, and thereupon she acknowledged to me that she executed the same, and that she does not wish to retract such execution.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal, the day and year first above written.
Geo. C. Rogers, Clerk of District Court

Admiral and Mrs. Robert Chewning
"Litelfield" Rt. 2, Box 377D
Heathville, Va 22473

Dear Admiral and Mrs. Chewning:

I filed your claim for water rights on Thursday, May 19th. I personally went over those claims with the Director of the Eastern Idaho Office of Water Resources. We probably went into more specific detail than the average person filing those claims but I feel it necessary to do it right. I think we are quite accurate on the location of the land and the water sources. The problem was that the 55 acres lay in different sections which made it impossible for a layman to locate and called for the need of the engineer. The District Manager felt that we might have one of the only very accurate filings. As you will notice, I claimed 2.0 cubic feet which is 100 miners inches directly out of the river through a ditch. According to Mr. Furey and our view of the land, this ditch serves most of your property. I claimed .20 cfs out of the spring which would irrigate two acres or a minimal part of your land above the first ditch. I also claimed .02 cfs for the stock water directly out of the river.

The only problem area that I see is substantiating the April 1st, 1870 priority date. I was asked how we established that and I explained that others in the area within the same section are claiming it. I further advised the District Manager that I had talked to Mr. Claus Burstedt who had lived in the country since 1909 and who says that our irrigation took place at least before the turn of the century. The director suggested that we try to obtain Affidavits to support our claim. I feel it will be very difficult. Let me know what you think.

Attachment 4 1/2

Admiral and Mrs. Robert Chewning
May 20, 1983

Page -2-

As you know, this is only a claim to water rights and is not conclusive proof. If the matter came to litigation, we would have to try and prove our claim. But, the filing does protect us under the statute.

You will find enclosed my statement and that of Johnston and Couch. I had more time when I finished than I thought I would. I realize it was expensive, but I feel that we had to take this time to prepare correct filings. You will also find copies of the filings that we claimed. I advanced the \$60.00 filing fee, ie. \$30.00 for each claim.

If you have any questions, please contact me. I've tried to call you several times, but there has been no answer.

Thank you very much for your business.

Very truly yours,

John S. McKinney

AFFIDAVIT

COMES NOW John S. McKinney, being duly deposed and sworn, states and avers as follows:

I am a resident of Lemhi County and a practicing attorney. I have been licensed in the State of Idaho since 1972. In 1983 I was retained by Mr. And Mrs. Robert W. Chewning to file a claim of water right on property they owned in the Pahsimeroi Valley State of Idaho. In pursuing that filing I spoke with one Claus Burstedt who had lived in the Pahsimeroi Valley since 1909. He specifically informed me that he was aware of irrigation in the valley, but more particularly on property owned by Mr. And Mrs. Chewning. He specifically stated that the irrigation had taken place beginning prior to the turn of the century, or prior to the year 1900. He was not specific on the exact date, prior to 1900.

Based on his information, and like filings in the area, the Chewnings have claimed April 1, 1870, as their priority date, and I believe that that is much more accurate than a 1933 filing date. Logic says irrigation took place in the 1800s.

Signed and dated this 25th day of September, 2006.

132-201
AFFIDAVIT RE: WATER RIGHTS PRIORITY

BOISE H. ELLIS, being first duly sworn, on his oath does depose and say:

That I am 89 years old, having been born October 30, 1888, on the old Ellis Ranch in the Pahsimeroi Valley, Custer County, where I reside at this time;

That my father, George A. Ellis, Sr., owned the North 1/2, approximately, known as the "Ellis Ranch" and owned in partnership with James M. Shoupe (Jim Shoupe) the remainder or South 1/2, approximately, known as the "Jim Shoupe Ranch" of the ranch property described in the attached Exhibit A which is a part of this Affidavit.

That the described ranch property was occupied by Jim Shoupe and my father sometime after 1863, the year my father came to Salmon, Idaho as a 6 year old boy but several years before Government Patents were issued for the property; that I recall my father stating the lands were occupied before he was old enough to file an entry with the government and that it was after occupying these lands for production of cattle and horse feed that he married my mother whose name was Mary Ellis, after marriage; that he also stated to me he had to give a man named Dan Ryer, a squatter on the Ellis Ranch before Patent was issued, a few head of stock to move his horses and camp off the land because he was interfering with the irrigation, raising of crops and pasturing of cattle and horses; and that it was the hard winter of 1889 when he lost over 1000 head of cattle;

UNRECORDED
DEC 14 1992

Attachment 6 1/2

That as a boy under six years old, I saw tall, heavy willows growing along the old Weller-Shoupe-Ellis ditch and other lower ditches as a result of irrigation water flowing each season for delivery to the ranches from the Pahsimeroi river; that these willows were tall enough to completely conceal a rider named Lee Watson as I watched him riding a half-broken horse up the ditch bottom;

That based on my own observations and the conversations had over a period of many years with my father, George A. Ellis, Sr., I state as a fact that large amounts of water were diverted from the Pahsimeroi River through the Weller-Shoupe-Ellis ditch and other ditches headed below to irrigate the Ellis and Jim Shoupe ranches herein described; and, that such waters were used with never a shortage from the late 1870's, without interruption, to this date; and

That large amounts of water are necessary in order to grow wild grass pasture and cross hay for the Ellis and Jim Shoupe ranches for the reason that they are bottom-type ground which requires large amounts of water on a regular basis to keep from burning.

Dated this 4th day of April, 1977.

James H. Ellis
James H. Ellis

SUBSCRIBED and SWORN To before me this 4th day of April, 1977.

Admiral and Mrs. Chewning
"Litelfield"
Route 2, Box 377D
Heathville, Va 22473

Dear Admiral and Mrs:

I am in the final process of completing your claim for water rights. The engineer, James Johnstone and I traveled to your property with Jack Furey so we could accurately locate the ditches, diversions, etc.

You have approximately 55 acres (54.67). The Idaho Code presumes 1 miner inch per acre. I believe that due to the sandy conditions you would require 2 inches per acre. I discussed the matter with the Soil Conservation Service representative in Salmon, Ralph Swift, and he suggested 1.75" to 2.00". You have two sources of water, (1) a ditch from the Pahsimeroi River (largest source) and (2) a ditch from a spring (smaller source). These two sources are for irrigation. You will also require a source for stock watering directly out of the Pahsimeroi. I believe we will claim 2.0 cfs (100 inches) or the large ditch from the Pahsimeroi River and .20 cfs (10 inches) from the spring for a period from April 15th through October 15th each year. I picked the figure of 30 for livestock use and the requirement of 0.02 cfs for this use (Water Resources advised this amount).

As soon as the engineer finishes the drawings and I am able to establish a date of priority, I will personally deliver and file the claims in Idaho Falls. Although it is more expensive, I believe it is the best procedure to assure proper filing. I'll send you my statement and the engineers as soon as we have the documents ready and filed.

Please call if you have any questions.

Very truly yours,

John S. McKinney
