10. ☒ **Other Provisions**
Should be: The first paragraph of the other provisions on this recommendation should be deleted.
11. **I object because:**
 - ☐ This water right should not exist.
 - ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S): The first paragraph of "other provisions necessary for definition or administration of this water right" should be deleted as the provision setting forth that the delivery of water under this right may be subject

to procedures described in the United States Bureau of Reclamation "space holder" contracts and the two Eagle decrees is ambiguous, appears to place restrictions on this water right that do not exist in other recommended water rights for use of water from the Snake River, and fails to provide any guidance as to how such provision is necessary for the definition or administration of this water right and as such is inconsistent with § 42-1401A(5), Idaho Code. The final two lines of this first paragraph under "other provisions" are also vague, impossible to determine the purpose or meaning, and do not constitute a provision that is necessary for definition or administration of this water right.
