10. ☒ **Other Provisions**

The second paragraph should be: Although the name of the United States of America acting through the Bureau of Reclamation appears in the name and address section of this partial decree, the ownership of this water right is divided. The United States Bureau of Reclamation holds nominal legal title. Beneficial or equitable title to this water is held in trust by the Burley Irrigation District and Minidoka Irrigation District, in the quantities and/or percentages specified in the contracts between the Bureau of Reclamation and the above irrigation districts for the benefit of the landowners entitled to receive distribution of this water from the respective irrigation districts pursuant to Idaho law. As a matter of law, this interest is appurtenant to the lands within the boundaries of or served by such irrigation districts. The ownership of this water right is derived from law and is not based exclusively on the contracts between the Bureau of Reclamation and the irrigation districts.

11. **I object because:**
- ☐ This water right should not exist.
 - ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S): The only irrigation districts having equitable title to this storage water are Minidoka Irrigation District and Burley Irrigation District, and their interest should be specifically identified.
