D. I object to the following elements as recommended in the Director's Report.
(Please check the appropriate box(es)).

1. ☐ **Name and Address**

Should be:

2. ☒ **Source**

Should be: **The Director's recommendation fails to identify and distinguish the water supply associated with this water right. The claimed right is entitled to be filled only by high surface water runoff from snow melt or rain. Its source of supply is not from base flow (ground water) to the Snake River. Conditions are required to prevent enlargement of the source of supply.**

3. ☐ **Quantity**

Should be:

4. ☐ **Priority Date**

Should be:

5. ☐ **Point(s) of Diversion**

Should be:

6. ☐ **Instream Flow Description**

Should be:

7. ☐ **Purpose(s) of Use**

Should be:

8. ☐ **Period of Year**

Should be:

9. ☐ **Place of Use**

Should be:

10. ☒ **Other Provisions**

Should be: The first paragraph of the other provisions on this recommendation should be deleted.

11. **I object because:**

☐ This water right should not exist.

☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

See response to #2 Source above. Also: The first paragraph of "other provisions necessary for definition or administration of this water right" should be deleted as the

provision setting forth that the delivery water to this right may be subject to procedures described in the United States Bureau of Reclamation "space holder" contracts and the two Eagle decrees is ambiguous, appears to place restrictions on this water right that do not exist in other recommended water rights for use of water from the Snake River, and fails to provide any guidance as to how such provisions are necessary for definition or administration of this water right.
