WATER RESOURCES
WESTERN REGION

Dear Jan:

The purpose of this letter is confirm our telephone conversation yesterday, wherein we discussed the above-referenced water rights. As we discussed, the adjudication claims filed by our client, Jerry Tlucek, identified a 285.5 acre permissible place of use. The intent was not to seek an enlargement of the licensed quantity of water and number of irrigated acres (247); rather, the intent was to seek confirmation of the claimed 285.5 acre place of use which has been irrigated, rotationally, since before November 19, 1987.

It is my understanding from our conversation that water rights 63-3323 and 63-3324 will be recommended with a 285.5 acre permissible place of use, with the limitation that no more than 247 acres can be irrigated at any given time. If my understanding is incorrect, please immediately notify me.

Thank you for your assistance in this matter. If you have any questions, please do not hesitate to contact me.

Sincerely,

Tiffany M. Hudak
Paralegal
